General Information

Overview

In this unit, you will focus on examining, diagnosing and managing common conditions that impact male and female health across the lifespan. You will advance your understanding of a range of management topics related to multicultural and ageing populations including injury prevention, advice on healthy lifestyles, self-managed care, rehabilitation, and treatment options. This unit will assist you with your clinical development in the student clinic by addressing the importance of integrating knowledge and skills to support clinical decision-making for these special populations.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Self-reflection

Feedback

While this unit is run as an online unit, introducing in-person teaching opportunities for students to gain hands on experience treating older adults with musculoskeletal complaints would be beneficial.

Recommendation

It is recommended that the Unit Coordinator explore the possibility of introducing in-class workshops.
