3 Ass 3 Business Report and Presentation

Assessment Type

Presentation and Written Assessment

Task Description

For this assignment, you are to create a project proposal for an organisation that wishes to enhance its communications with technology. We would like you to present your proposal and support it with a business report.

The description of the organisation and their requirements will be provided on the unit website. You may choose another appropriate case study, e.g., related to your work. Approval for an alternative organisation must be obtained from your lecturer and reported to the unit coordinator at least two weeks prior to the assignment deadline.

Business Report

Please write a business report to report your findings.

Summary and Evaluation (400-800 words)

Summarise the organisation's proposal, perhaps including aspects such as:

- Any relevant business requirements of the organisation,
- The context of the organisation, e.g., the existing flow of information within the organisation and the types of information that currently flow,

Evaluate the organisation's idea based on how it will affect communication within their organisation. While your report may draw on the material covered in this unit, you are expected to find and use references beyond those provided by this unit. You could consider:

- How the communication model applies to the organisation, and
- How the organisation's proposal would affect the communication in terms of the model's application.

Ethical and Intercultural Implications (200-400 words)

Discuss the ethical and intercultural implications of using the systems within the organisation's context. You could consider aspects such as:

- Employee, employer or customer privacy when using the technologies, and
- How the technologies, or the structure of the organisation and its information flows impact any intercultural communication.

Recommendations (200-400 words)

Please include three to six recommendations to the owner as to how they should proceed. Provide convincing, well-structured recommendations that are supported with evidence. Apply logos, ethos and pathos to persuade the reader. In particular, you should build a structured argument using Toulmin's model for each of your recommendations.

Presentation

We would like you to present your findings to the client. Create a slide show, e.g., a PowerPoint, to support your presentation. Your presentation should last approximately ten minutes.

Internal students will present during class time. Distance students will present online during a group video conference. Distance students will require a web cam, microphone and speaker (or headset).

You may work alone or in groups of up to four. All group members will usually receive the same mark. The unit coordinator must be informed prior to submission if a group decides to split.

All members of the group are required to speak for at least two minutes each.

Submission

Include the names of your group members when you submit your assignment. Only one submission per group is necessary. Usually, all group members will receive the same mark.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
