General Information

Overview

This advanced unit provides you with a broad understanding of electronic crime and digital forensics in investigations of electronic criminal activities. In this unit, you will learn digital forensics procedures and tools, methods of using digital evidence in justice and legal issues in digital forensics. You will use industry leading software tools to conduct your own forensics investigation on realistic case studies. Completion of this unit enables you to pursue careers within an electronic crime investigation unit of law enforcement agencies, government departments, and businesses.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator's reflection.

Feedback

The inclusion of authentic digital forensics scenarios in the online test enhances engagement and ensures a practical and comprehensive assessment of students' understanding.

Recommendation

Continue using authentic digital forensics scenarios in the online test.

Feedback from Student Unit and Teaching Evaluations (SUTE) feedback and Unit Coordinator's reflection.

Feedback

Incorporating a simplified example of key tutorial activities in the lecture sessions can significantly enhance student understanding and application of the concepts.

Recommendation

In the lecture sessions, consider reviewing a simplified example of key activities covered in the tutorials for a better understanding.
