

Profile information current as at 18/05/2024 03:56 pm

All details in this unit profile for COIT12211 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## **General Information**

#### Overview

Blockchain is a decentralised digital ledger with a growing list of records called blocks, which contain timestamp data, cryptographic information and transaction details. Blockchain is considered a disruptive and emerging technology, with a wide range of potential applications despite being mainly associated with cryptocurrency. The use of blockchain technologies has grown exponentially over the years in many industries including retail, service and finance. While there is a huge potential for blockchain technologies in many industries, there currently exists a blockchain skills shortage. This unit will introduce you to the blockchain concepts, business applications and security concerns. In addition, the unit complements this knowledge with opportunities to design and develop your own blockchain applications.

## **Details**

Career Level: Undergraduate

Unit Level: Level 2 Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

# Pre-requisites or Co-requisites

Pre-requisite COIT11238

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <a href="#">Assessment Policy and Procedure (Higher Education Coursework)</a>.

# Offerings For Term 1 - 2020

- Brisbane
- Melbourne
- Online
- Sydney

## Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

## Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

## Class and Assessment Overview

#### Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

## Class Timetable

#### **Regional Campuses**

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### **Metropolitan Campuses**

Adelaide, Brisbane, Melbourne, Perth, Sydney

### **Assessment Overview**

1. Written Assessment

Weighting: 25% 2. **Presentation** Weighting: 25% 3. **Group Work** Weighting: 50%

## Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

#### All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

# **Unit Learning Outcomes**

## On successful completion of this unit, you will be able to:

- 1. Explain the fundamentals of blockchain technologies
- 2. Examine the application of blockchain technologies in various industries
- 3. Prepare a business case for blockchain technologies adoption
- 4. Design an enterprise blockchain application
- 5. Implement an enterprise blockchain application
- 6. Report relevant critical success factors and best practices in blockchain technologies adoption.

The Australian Computer Society (ACS) recognises the Skills Framework for the Information Age (SFIA). SFIA is adopted by organisations, governments and individuals in many countries and provides a widely used and consistent definition of ICT skills. SFIA is increasingly being used when developing job descriptions and role profiles. ACS members can use the tool MySFIA to build a skills profile.

This unit contributes to the following workplace skills as defined by SFIA 7 (the SFIA code is included):

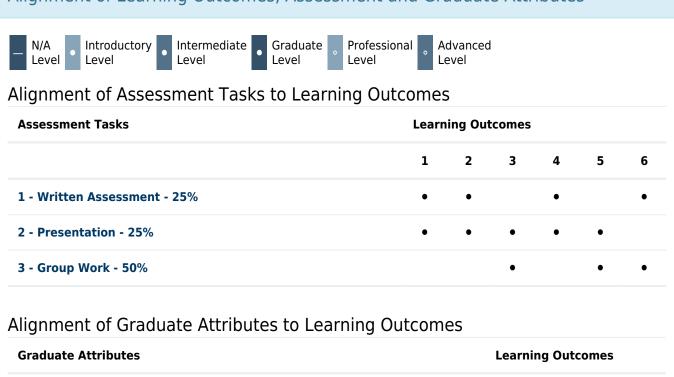

Business Process Improvement (BPRE)

Innovation (INOV)

Information Security (SCTY)

IT Management (ITMG)

# Alignment of Learning Outcomes, Assessment and Graduate Attributes

| Graduate Attributes   | Learning Outcomes |   |   |   |   |   |

## **Term Specific Information**

#### Dr. Sriman Grandhi,

Senior Lecturer | School of Engineering & Technology CQUniversity Melbourne, 120 Spencer Street, Melbourne 3000. P +61 3 9616 0602 | X 50602 | E s.grandhi@cqu.edu.au https://spectre.cqu.edu.au/profiles/view/1448

## **Assessment Tasks**

## 1 ePortfolios

## **Assessment Type**

Written Assessment

## **Task Description**

This unit uses an ePortfolio as a reflection process on your learning. We use the CQU Portfolio system, which is accessible via the Moodle unit website.

The purpose of this assessment task is for you to develop a portfolio reflecting your understanding of the subject material. As part of this assessment, you are required to maintain an online reflective portfolio for the topics mentioned below. You need to read the relevant textbook chapter(s) or reading, and complete your portfolio entry following the instructions provided on the Moodle unit website. The due date of ePortfolios are provided on the Moodle unit website.

Each ePortfolio is worth 5 marks.

You can complete your portfolios before the due dates but feedback will not be released until 2 weeks after the due date of each portfolio. Marks and feedback on your work will be returned to you via the Moodle unit website. No comment on your work will be posted on your portfolio for viewing by the general public. Use the following titles for your portfolios. Please refer to the unit's Moodle site for a detailed description of the task.

#### ePortfolio Titles

Week 1 portfolio title: Centralised Processing

Week 2 portfolio title: Distributed Processing

Week 3 portfolio title: Smart Contracts

Week 4 portfolio title: Blocks in Blockchain

Week 5 portfolio title: Blockchain Development Tools

#### **Assessment Due Date**

Week 5 Friday (10 Apr 2020) 11:55 pm AEST

As per the schedule presented on the Moodle unit website

#### **Return Date to Students**

Week 7 Friday (1 May 2020)

Within two weeks from the date of submission

#### Weighting

25%

#### **Assessment Criteria**

The marking criteria are based on:

- · Knowledge & understanding of the topic as depicted by collection in the view
- · Communication skills and information literacy as demonstrated by the discussion
- · Technical literacy as demonstrated by the selection of items
- · Discussion of appropriateness for inclusion in view
- · References/citations included

#### Please refer to the unit's Moodle site for a detailed description of the task.

#### **Referencing Style**

• Harvard (author-date)

#### **Submission**

Online

#### **Submission Instructions**

via CQU Portfolio and the Moodle unit website

#### **Learning Outcomes Assessed**

- Explain the fundamentals of blockchain technologies
- Examine the application of blockchain technologies in various industries
- Design an enterprise blockchain application
- Report relevant critical success factors and best practices in blockchain technologies adoption.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence

# 2 Group Presentation

### **Assessment Type**

Presentation

#### **Task Description**

This is a group based assessment worth 25% of the total available marks for this unit. The aim of this assessment is to improve your industry based practical research skills as well as team based working and learning, understanding about recent developments in the Blockchain area and the usd practical research skills as well as team based working and learning, understanding about recent developments in the Blockchain area and the use of Blockchain technologies in the real world. In this assessment task, as future ICT professionals, you are required to research recent developments in the Blockchain area and prepare a presentation as a group of up to four members during the class time.

NOTE: Assessment item 2 has slightly different requirements for online (FLEX) students. For a more detailed description on this assessment, please refer to the Moodle unit website.

As students are given the opportunity to select their group members, separate groups are not created for this assessment task. Hence, all group members are required to submit the same assessment through the Moodle submission link. Please refer to the unit's Moodle site for a detailed description of the task.

#### **Assessment Due Date**

Week 7 Friday (1 May 2020) 11:55 pm AEST

## **Return Date to Students**

Week 9 Friday (15 May 2020) Within two weeks from the date of submission

#### Weighting

25%

#### **Assessment Criteria**

The assessment criteria includes aspects such as:

- Insightful analysis of blockchain technologies in the context of the chosen industry.
- Audience has a clear understanding of implications of blockchain technology for the chosen industry.
- Insightful choice and application of evaluation with due consideration of the industry's context.
- Your presentation has a strong and engaging introduction, an effective thesis; the body of the presentation flows from thesis; your conclusion effectively wraps up the work; structure includes title slide, conclusion or summary slide and a reference list.
- Meticulous presentation framing, e.g., ideas in point form; not in sentence form; slide numbers; footers; fast and efficient transitions; few words per slide; large font sizes; only relevant animation and images; consistent colour, fonts and layouts; contrast between text and background.
- Stage presence including well prepared, stands up straight, loud clear voice, good eye contact, does not speak too fast or too slow; appropriate use of cue cards: does not read; appropriate use of time.
- Mechanics, e.g., spelling, grammar and referencing.

#### Please refer to the unit's Moodle site for a detailed description of the task.

#### Referencing Style

Harvard (author-date)

#### **Submission**

Online Group

#### **Submission Instructions**

Include the names of your group members when you submit your assessment. All group members are required to submit

the same presentation and handout files. All group members will receive the same mark.

#### **Learning Outcomes Assessed**

- Explain the fundamentals of blockchain technologies
- Examine the application of blockchain technologies in various industries
- Prepare a business case for blockchain technologies adoption
- Design an enterprise blockchain application
- Implement an enterprise blockchain application

## **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence

## 3 Solution Development

#### **Assessment Type**

Group Work

## **Task Description**

This assessment is worth 50% of the total available marks for this unit. Students are given the autonomy to choose one of the two options provided below.

#### Option 1:

The aim of this assessment item is for you to prepare a report relating to the strategies/approaches required to ensure a smooth implementation of blockchain technology solution for the chosen industry. More information relating to the description of the task and the requirements will be made available on the unit website. If you have any queries regarding this assessment, you should consult your local lecturer/tutor.

Submission: Online - Group submission (maximum four students in each group).

## Option 2:

The aim of this assessment item is for you to develop an application for the chosen industry using one of the available blockchain tools. More information relating to the description of the task and the requirements will be made available on the unit website. If you have any queries regarding this assessment, you should consult your local lecturer/tutor.

Submission: Online - Group submission (maximum four students in each group).

NOTE: Assessment item 3 has slightly different requirements for Online (FLEX) students. For a more detailed description on this assessment please refer to the Moodle unit website.

As students are given the opportunity to select their group members, separate groups are not created for this assessment task. Hence, all group members are required to submit the same assessment through the

#### Moodle submission link. Please refer to the unit's Moodle site for a detailed description of the task.

#### **Assessment Due Date**

Week 11 Friday (29 May 2020) 11:55 pm AEST

#### **Return Date to Students**

At certification date (10th July).

#### Weighting

50%

#### **Assessment Criteria**

Your assessment solution will be assessed mainly on your ability to:

- Analyse the challenges faced by the chosen industry
- Benefits and limitations of blockchain technologies in the context of the chosen industry
- Argument for blockchain technology, e.g., convincing, well-structured argument with due consideration of industry environment
- Design and develop a plan to adopt blockchain technology
- Organisation of your document, e.g., well-structured document

#### **Referencing Style**

• Harvard (author-date)

#### **Submission**

Online Group

#### **Submission Instructions**

Include the names of your group members when you submit your assessment. All group members are required to submit the same presentation and handout files. All group members will receive the same mark.

### **Learning Outcomes Assessed**

- Prepare a business case for blockchain technologies adoption
- Implement an enterprise blockchain application
- Report relevant critical success factors and best practices in blockchain technologies adoption.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence

# **Academic Integrity Statement**

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

#### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

#### What can you do to act with integrity?

#### **Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### **Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
