# COIT12212 *Cyber Security Management*

## Term 2 - 2024

Profile information current as at 15/05/2024 10:22 pm

All details in this unit profile for COIT12212 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

This unit introduces you to the processes and controls for protecting organisations from cyber security threats. You will learn about management controls such as security governance and policy, risk management, and auditing, as well as processes involving employees and end users that contribute to the protection of an organisation's assets. With recent attacks as case studies, this unit will prepare you to select a range of non-technical measures to minimise future cyber security threats.

### Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

### Pre-requisites or Co-requisites

Pre-requisite: COIT11238 Network Infrastructure Foundations and COIT11223 Information Technology and Society

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 2 - 2024

- Brisbane
- Melbourne
- Online
- Rockhampton
- Sydney

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Class Timetable

### Assessment Overview

#### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## CQUniversity Policies

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student Unit and Teaching Evaluation

##### Feedback

Students were confused about the word count and asked if tables were included, as several tables are necessary in the final assessment.

##### Recommendation

The word count guidelines and table contents expectations in assessments will be clarified in the assessments specifications to alleviate students' confusion.

#### Feedback from Unit Coordinator Self Reflection

##### Feedback

Students found some of the workshop activities too long.

##### Recommendation

The relevant workshop activities will be revised

## Unit Learning Outcomes

### On successful completion of this unit, you will be able to:

1. Discuss the best practice principles, processes and standards in cyber security
2. Compare the role of management, operational and technical controls in delivering cyber security
3. Conduct an organisational cyber security risk analysis
4. Prepare plans for auditing security controls and recovering from security attacks
5. Explain techniques for managing people to ensure secure IT systems.

The Australian Computer Society (ACS) recognises the Skills Framework for the Information Age (SFIA). SFIA is adopted by organisations, governments and individuals in many countries and provides a widely used and consistent definition of ICT skills. SFIA is increasingly being used when developing job descriptions and role profiles. ACS members can use the tool [MySFIA](#) to build a skills profile.

This unit contributes to the following workplace skills as defined by [SFIA 7](#) (the SFIA code is included):

- Information Security (SCTY)
- Information Assurance (INAS)
