

COIT13146 System and Network Administration

Term 1 - 2019

Profile information current as at 17/05/2022 03:31 pm

All details in this unit profile for COIT13146 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit gives you a practical introduction to system and network service management and administration. You are provided with the skills necessary to configure and manage secure server environments and deliver network services. You will cover topics such as managing computer systems and users, managing network services, configuring and managing system and network software, computer security mechanisms and ethics, and developing administrative policies and procedures. You will use a Linux operating system as a practical platform to apply and demonstrate knowledge.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisite: COIT12206 OR COIT13147

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2019

- Brisbane
- Cairns
- Melbourne
- Online
- Rockhampton
- Sydney
- Townsville

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Written Assessment**

Weighting: 15%

2. **Written Assessment**

Weighting: 25%

3. **Written Assessment**

Weighting: 60%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student observations during term, teaching staff observations and Have Your Say feedback summary

Feedback

Some activities/questions, while relevant, have proven to be very technically challenging.

Recommendation

For activities/questions of this nature, provide additional guidance and scaffolding, for example, such questions will be presented with partial solutions given, or other additional support such as providing ad-hoc video or written guides.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Use administration commands and utilities to manage and secure computer systems
2. Configure and deploy common system and network services
3. Demonstrate the ability to perform user management and maintenance tasks
4. Describe how elements of relevant codes of ethics inform professional practice
5. Develop, deploy and evaluate security policies and rules.

Australian Computer Society (ACS) recognises the Skills Framework for the Information Age (SFIA). SFIA is in use in over 100 countries and provides a widely used and consistent definition of ICT skills. SFIA is increasingly being used when developing job descriptions and role profiles.

ACS members can use the tool MySFIA to build a skills profile at

<https://www.acs.org.au/professionalrecognition/mysfia-b2c.html>

This unit contributes to the following workplace skills as defined by SFIA. The SFIA code is included:

- Network Support (NTAS)
- Problem Management (PBMG)
- Data Analysis (DTAN)
- System Design (DESN)
- Service Desk and Incident Management (USUP)

Textbooks and Resources

Textbooks

COIT13146

Prescribed

UNIX and Linux System Administration Handbook (5e)

Edition: Fifth (2018)

Authors: Evi Nemeth, Garth Snyder, Trent R. Hein, Ben Whaley, Dan Mackin

Addison-Wesley Professional

Upper Saddle River , NJ , United States of America

Binding: Paperback

Additional Textbook Information

Paper copies can be purchased from the CQUni Bookshop here: <http://bookshop.cqu.edu.au> (search on the Unit code)

eBook copies can be purchased from the publisher here: <http://www.pearson.com.au/9780134278292>

[View textbooks at the CQUniversity Bookshop](#)

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- VirtualBox
- You should bring your own laptop to classes for setting up systems activities and saving your lab work

Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)

For further information, see the Assessment Tasks.

Module/Topic	Chapter	Events and Submissions/Topic
Course Review and Project Completion		
Review/Exam Week - 10 Jun 2019		
Module/Topic	Chapter	Events and Submissions/Topic
		System and Network Admin Project Due: Review/Exam Week Friday (14 June 2019) 11:55 pm AEST
Exam Week - 17 Jun 2019		
Module/Topic	Chapter	Events and Submissions/Topic

Assessment Tasks

1 Linux System Administration Activity Report

Assessment Type

Written Assessment

Task Description

Each week (week 1 through 5) you will perform hands-on system administration activities, including setting up a Linux system, using Linux command line to perform filesystem and user management, and implementing security policies (e.g. file access control). You are required to report on these activities by answering questions about the tasks performed, and demonstrating that you have performed them by submitting evidence such as screenshots, logs, configuration files or other as required. The tasks and questions will be provided each week in Moodle, with all answers and required evidences to be submitted in your Linux System Administration Activity Report.

Assessment Due Date

Week 5 Friday (12 Apr 2019) 11:55 pm AEST

Return Date to Students

Week 7 Friday (3 May 2019)

Weighting

15%

Assessment Criteria

Your Activity Report will be marked on the correctness and clarity of your answers. Evidence of tasks that are submitted (e.g. files, screenshots) will be marked on the correctness and depth of information shown. Detailed marking criteria and expected format of Activity Reports are available in Moodle.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Learning Outcomes Assessed

- Use administration commands and utilities to manage and secure computer systems
- Demonstrate the ability to perform user management and maintenance tasks

Graduate Attributes

- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Ethical practice

2 Network Administration Activity Report

Assessment Type

Written Assessment

Task Description

Each week (weeks 6 through 9) you will perform hands-on system administration activities, including setting up a Linux system, using Linux command line to perform filesystem and user management, and implementing security policies (e.g. file access control). You are required to report on these activities by answering questions about the tasks performed, and demonstrating that you have performed them by submitting evidence such as screenshots, logs, configuration files or other as required. The tasks and questions will be provided each week in Moodle, with all answers and required evidences to be submitted in your Linux System Administration Activity Report.

Assessment Due Date

Week 10 Friday (24 May 2019) 11:55 pm AEST

Return Date to Students

Week 12 Friday (7 June 2019)

Weighting

25%

Assessment Criteria

Your Activity Report will be marked on the correctness and clarity of your answers. Evidence of tasks that are submitted

(e.g. files, screenshots) will be marked on the correctness and depth of information shown. Detailed marking criteria and expected format of Activity Reports are available in Moodle.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Learning Outcomes Assessed

- Configure and deploy common system and network services
- Develop, deploy and evaluate security policies and rules.

Graduate Attributes

- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Ethical practice

3 System and Network Admin Project

Assessment Type

Written Assessment

Task Description

You will develop a complete system typical of real, small business networks, with multiple computers configured in a network and running common services and applications. To do this you will design the IP-based network, select the services to run (e.g. web server, file server), and configure each computer to meet given security and user requirements. The system will be deployed in a virtual environment. You will produce and submit relevant documentation (e.g. installation guides, usage guides) as well as evidence that your system meets the requirements (e.g. configuration files, logs, screenshots). Details of this project, including the case study, security requirements and user requirements, and detailed marking criteria, are available in Moodle.

Assessment Due Date

Review/Exam Week Friday (14 June 2019) 11:55 pm AEST

Return Date to Students

This assessment result will be returned on Certification of Grades day

Weighting

60%

Assessment Criteria

The system documentation (including submitted files) that you produce will be assessed using detailed assessment criteria that includes:

1. Relevant material is included, while irrelevant or repetitive material is omitted;
2. Sufficient depth is provided so that it can be used and understood by the intended audience;
3. Sufficient breadth is provided, demonstrating all requirements of the system are met;
4. Presentation and layout of the documentation such that it is clear and easy to follow;
5. All requested files are submitted in the correct format.

Detailed marking criteria are available in Moodle.

Referencing Style

Online

Learning Outcomes Assessed

- Use administration commands and utilities to manage and secure computer systems
- Configure and deploy common system and network services
- Demonstrate the ability to perform user management and maintenance tasks

- Describe how elements of relevant codes of ethics inform professional practice
- Develop, deploy and evaluate security policies and rules.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Ethical practice

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
