### 1 Participation Activities

#### Assessment Type

Practical and Written Assessment

#### Task Description

Please note that all times in Moodle are Australian Eastern Standard Time - students will need to adjust the submission

times for their own time zone if living outside Queensland.

During the term students will be asked to complete four participation activities related to the unit content. They are: PA1. An email PA2. An online quiz PA3. Assessment of skills relating to the Report (Assessment 3) PA4. An online quiz Requirements for each activity are posted on the Moodle unit website. NO EXTENSIONS can be granted for the Quizzes. If students do NOT complete each Quiz before the due date and time they will receive 0 marks. Students must ensure that they complete the quizzes well ahead of the due date and time to avoid last minute problems with technology preventing them from completing the Quizzes on time.

PA3 is an in-class supervised assessment for internal students. Students must be present in class on the allocated day to complete and submit the assessment. Distance students also have to complete the assessment within the allocated time. No late submissions will be accepted for marking without a valid extension. Extensions will be given in EXCEPTIONAL circumstances only. Students with a valid extension may have to sit an alternate assessment task.

### **Assessment Due Date**

Check the Assessment Specifications and Moodle website for the due date of each participation activity. Please note that NO late submissions will be allowed for PA2 and PA4. Internal students must complete PA3 in a supervised environment.

### **Return Date to Students**

Participation Activities PA1 and PA3 will be returned after they have been marked by local teaching staff and moderated by the Unit Coordinator. ## Task Description

Internal students will form small groups within their workshops and will present a topic to their tutorial groups. Local lecturers will finalise topics and schedules for internal groups. Distance students can present individually due to logistical restrictions. Distance students need to contact the Unit Coordinator before the beginning of Week 3 to discuss how they will complete their presentations.

A list of possible topic categories will be made available through the assessment specification document. Students can consider suitable topic areas from these categories. It is not essential to be restricted to this list. Students should discuss other potential topics with their local lecturer. To achieve high outcomes in this assessment, all students are encouraged to select innovative, useful and interesting topics that demonstrate their presentation skills and meet the assessment requirements and marking criteria. The topic and date of presentation must be approved by the local lecturer by the end of Week 3.

Presentations MUST proceed on the allocated day. If one person in the group is NOT present on the day, the other students MUST proceed with the presentation. This will be taken into account when marking. If a student cannot present on the allocated day, they will need to apply for an extension AS SOON AS POSSIBLE and need to supply evidence. If an individual student in a group is granted an extension the rest of the group will still have to present on the allocated day. The individual with an extension may have to present on their own at a later date.

## Assessment Due Date

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### **What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### **Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### **Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### **What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
