

COMM12022 Communication and Global Technologies

Term 1 - 2024

Profile information current as at 10/05/2024 12:09 am

All details in this unit profile for COMM12022 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Communications technologies have changed the way we live in profound ways and have determined the shape of contemporary culture around the world. At the same time, people play a role in cultural change by determining how such technologies are utilised. This unit examines the development of communication and its associated technologies such as computer mediated communications, the constructs of Apple and Microsoft and the rise and proliferation of social media platforms. It critically analyses how modern culture has, and continues to be, influenced by these developments and incorporates an intergenerational reflection of the evolution of communication. Through this unit, you will develop a critical awareness of new communication technologies and their impact on a global scale.

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Informal Student Feedback

Feedback

Flexibility was appreciated by students, particularly those who take this unit alongside units with intensive work integrated learning, internship-style elements.

Recommendation

Continue to deliver content in formats where students can access learning materials at their own pace, while looking for opportunities to offer students flexibility as needed.

Feedback from Teaching Staff Review

Feedback

Practical assessment allows students to apply research and interviewing skills. Students enjoy this aspect and find it valuable, however this is often the first-time students have encountered this interview style and would benefit from more training.

Recommendation

Embed more content in the unit which explains interviewing for research, and consider opportunities to practice mock interviews beforehand.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Craft interrogative questions for the purpose of obtaining information during an interview
2. Analyse the key effects of the communication technology evolution
3. Categorise the cultural effects of new media
4. Evaluate and discuss the core cultural effects of recent communication technology
5. Combine a formal essay with a reflective account of the research process.

Assessment Tasks

1 Self-Reflection

Assessment Type

Practical Assessment

Task Description

Overview

COMM12022 *Communication and Global Technologies* explores the way communication has changed culture. Naturally, the way people use communication technology plays a significant role in determining how these changes take place. This first assessment allows you to reflect on your own use of communication technology over your lifetime. The assessment also encourages you to plan for assessment two and three.

Task Description

In this assessment you are required to reflect on your use of communication technology over your life. You might consider both when particular technology was introduced in your life (i.e. Did you have computers at primary school? When did you receive your first mobile phone?) and your use of communication technology (i.e. Do you watch television? How did you communicate with your friends when you were in high school?). Provide a written response of around 500 words.

You are also required to begin planning for the second assessment (the interview portfolio). You should read the Assessment 2 information and identify someone you could interview for Assessment 2. This person should be someone whose experience of communication technology would be different to yours. Provide a written response of around 250 words which outlines:

1. Your interviewee's name
2. The date (or estimated date) when you will conduct the interview
3. The place you will conduct the interview
4. A short justification which explains why this person is suitable to be interviewed (i.e this person's experience of communication technology appears different to yours, this person is available at a suitable time).

Other Information

As this is a reflective and planning document, references are not strictly required, however can be used to enhance your response. When including material or ideas from other sources, references should always be used.

Your response should be formatted as a word or pdf document. There are no set instructions for presentation however you should strive for your document to look professional and easy to read. The use of dot point formatting is acceptable, however should not replace proper sentence construction and the overall flow of your document.

Submission Instructions

This assessment will be submitted directly to Moodle. Additional instructions about submitting your assessment is available on the Moodle Support for Students site, or by asking the unit coordinator.

Marking Criteria

A full marking criteria will be provided on Moodle, however you will be assessed based on your attention to completion of requirements of task, presentation & structure, and quality of reflection.

2 Portfolio

Assessment Type

Presentation

Task Description

Overview

COMM12022 Communication and Global Technologies explores the way communication has changed culture. Naturally, the way people use communication technology plays a significant role in determining how these changes take place. The second assessment has a practical focus and gives you the opportunity to interview a person about their experience with communication technologies. You will use your interview findings in your third and final assessment item.

Task Description

In this assessment you will prepare a portfolio of items relating to an interview. You are required to plan, conduct and record a short interview with a person of an older generation (i.e. a grandparent or elderly family friend). In this interview you will seek to understand their experience of changes in communication technology. This should specifically include the effect these changes have had on their personal, social and working lives. For example: radio since World War II; the arrival of television; changes in music consumption brought about by vinyl records; cassette tapes; CDs; changes in telephony (telephone mobility, smartphone technologies); virtual conferencing softwares such as Skype; use of videos and video cameras; the arrival of computers and their use in business, academia, social media; online newspapers, online banking, social media (etc).

You will need to read the Assessment 3 information and clarify the information you need to gather to address the essay question. You will then create 'an interview guide': a list of planned interview questions. You will also need to organise your interview, including agreeing on a set time and place with your interviewee, printing the information and consent forms for your interviewee to sign,

Once you have completed your interview, you need to prepare your portfolio of items for submission. Your portfolio needs to contain:

1. A copy of the Participant Information Sheet and Consent Form signed by your interviewee
2. Your interview guide
3. A copy of the recorded interview, preferably uploaded to SoundCloud and a link placed in your portfolio
4. A justification and reflection of approx. 1500 words which provides a broad overview of the interview, justifies your choice of interview questions and reflects on how you feel the interview went (i.e. do you feel the questions were suitable for giving the kinds of responses you can use in Assessment 3? How would you improve the interview for next time? How has this experience and the things you've learnt in the unit widened your thoughts on the effects of technological communications change?).

Other Information

Your portfolio should be submitted as a single word or pdf document, with the exception of the audio recording. There are no set instructions for presentation however you should strive for your document to look professional and easy to read. The use of dot point formatting is acceptable, however should not replace proper sentence construction and the overall flow of your document.

The interview should be conducted using a question-and-answer format. It is suggested you should plan 10-15 questions to ask your interviewee but be flexible enough to adjust your questions based on your interviewee's responses. The recorded interview should be approximately 10 -15 minutes long. It must be sufficiently long for you to have enough information to use in your final assessment but should not be too lengthy. We would suggest your interview takes absolutely no longer than 30 minutes. If your interview needs to take longer than 10-15 minutes, this is an indication your interview guide (questions) have not been sufficiently refined.

Submission Instructions

This assessment will be submitted directly to Moodle. Additional instructions about submitting your assessment is available on the Moodle Support for Students site, or by asking the unit coordinator.

3 Essay

Assessment Type

Reflective Practice Assignment

Task Description

Overview

COMM12022 Communication and Global Technologies explores the way communication has changed culture. Naturally, the way people use communication technology plays a significant role in determining how these changes take place. The third assessment brings together the elements of the earlier two assessments to encourage you to consider the changes communication technology has on our lives, and our culture more broadly.

Task Description

In this assessment you will prepare a 2000-word argumentative essay which addresses the following research statement:

“Communication technology has really improved our lives”

You should use the information you gathered for the Assessment 2 interview as a primary source. You should analyse and discuss the changing use and impact of communication technology experience by your interviewee. You may include information from the interview (both paraphrased and the occasional, brief direct quote) in your essay. Your essay should also look at the deeper issues linked to the responses from your interviewee (i.e. fear of technology, increasing loss of technology, planned obsolescence, etc.).

Other Information

Your interview material should be referenced as ‘Personal Communication’, instructions relating to this are available in the APA referencing guide. Your essay should also reference material such as unit readings and your own research. At least 10 additional scholarly sources are expected.

Submission Instructions

This assessment will be submitted directly to Moodle. Additional instructions about submitting your assessment is available on the Moodle Support for Students site, or by asking the unit coordinator.

Marking Criteria

A full marking criteria will be provided on Moodle, however you will be assessed based on your attention to completion of requirements of task, quality of writing, written argument and analysis, research and use of sources to support argument, referencing.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
