## General Information

### Overview

While much of the criminal justice system is oriented toward street crime there are important mechanisms that seek to regulate the crimes of powerful including white collar crime, organised crime, institutional crime and corruption. In this unit you will examine the distinctive position of each of these forms of crime and the major hurdles they present for law enforcement and the courts. You will critically examine the different institutional responses to crimes of the powerful particularly in structures of accountability and the creation of regulatory agencies. You will also discuss emerging areas of study such as systemic inequality and generational crime. This knowledge will be applied through the development of an organisational audit or compliance plan that regulates illegal behaviour.
