General Information

Overview

This work placement capstone unit enables you to apply the theories, content knowledge and skills you have learned to a workplace environment. Your work will involve finding solutions to a problem in a regulatory agency, criminal justice agency, government or other organisation involved in the prevention or regulation of criminal activity. This practical experience will involve 50 hours of workplace experience which may be accrued intensively or distributed throughout the term. The university will assist in finding suitable workplace arrangements. You will be required to log this time and have this certified by your workplace mentor. You will be required to keep a digital portfolio of your workplace experiences and reflect on what this means for professional practice while setting a professional development agenda. During your practical experience you will complete a workplace project, under the supervision of your workplace mentor and our unit coordinator, supported by online resources and advice. The deliverables from this project will be submitted for assessment and will form part of your professional portfolio.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from External agency feedback Self-reflection

Feedback

Increased length of placement (>50 hours)

Recommendation

The length of the placement experience should be increased to provide the opportunity for more meaningful engagement with agency induction and a greater breadth of experience across the agency. This should be negotiated with both the agency and the student to ensure it is appropriate.

Feedback from Self-reflection

Feedback

Reduce impact of external assessors on final grade outcomes

Recommendation

The final assessment provided by external agency supervisors should shift to a hurdle requirement, marked on a pass/fail basis, therefore not contributing as significantly to the final grade outcome. This means the final grade will be derived from grading that has been undertaken by the UC only, based on placement related assessment items, to ensure a more even grade distribution.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply skills and knowledge developed in the course to criminology practice in a regulatory agency, criminal justice agency, government or other organisation involved in the prevention or regulation of criminal activity
2. Evaluate and report work placement experience and assess personal and professional growth, strengths and weaknesses in intellectual development, social development and professional development
3. Reflect upon and describe the careers, roles, relationships, responsibilities and activities of people engaged in the practice of criminology in the workplace
4. Reflect upon, evaluate and report enhanced knowledge of criminology gained as a result of participation in work placement and the nature of the environment that supported such learning.
