General Information

Overview

The contemporary justice arena requires significant cooperation between different agencies, Non-Government Organisations (NGOs) and community groups. In this unit you will develop practical strategies to manage communication and collaboration between disparate organisations, enabling them to balance their interests and desired outcomes. You will identify the importance of thorough stakeholder analysis and the inclusion of stakeholders into processes and accountability practices. The concept of public value provides a framework through which you will demonstrate the significance of justice practices to participants and the community at large. You will also develop interpersonal and digital skills to facilitate project management, cultural change and communication in professional networks.
