

# DEME20002 Supporting and Caring for People with Dementia

## Term 2 - 2022

Profile information current as at 02/05/2024 05:16 pm

All details in this unit profile for DEME20002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

In this unit, you will explore the different presentations of people who have dementia and how this may influence the care you plan and deliver. You will learn how to create comprehensive assessments, determine risk, and promote safety while advocating for an empowering and person-centred approach to care. You will have the opportunity to create therapeutic strategies and interventions and consider the impact of a person's cultural background and other key considerations that arise when working with older people who have diverse experiences and backgrounds. This unit will assist you to be a leader in the field of dementia care, providing many opportunities to consider individual, social and environmental elements to really make a difference to people who have dementia.

### Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 2 - 2022

- Online

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## CQUniversity Policies

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student feedback to Coordinator

##### Feedback

Students enjoyed a high level of support from the unit coordinator to progress through this unit.

##### Recommendation

Continue to provide a high level of support to students in the unit

#### Feedback from Student survey results and feedback from students

##### Feedback

Students did not feel the assessment items were easy to complete.

##### Recommendation

Review assessments for clarity and provide additional instruction where necessary

## Unit Learning Outcomes

### On successful completion of this unit, you will be able to:

1. Analyse the diverse presentations of people with dementia and the impact this may have on their care
2. Demonstrate the comprehensive assessment of people at risk of, or experiencing, dementia
3. Devise therapeutic strategies and interventions for the care of people experiencing dementia
4. Analyse the influence of historical factors on the psychological health and behaviour of person with dementia.

This unit is not linked to external accreditation

## Assessment Tasks

### 1 Case Study

#### Assessment Type

Case Study

#### Task Description

Type: Written assessment/Case study

Due date: 5 pm Wednesday 5th October 2022 (Week 12)

Weighting: 60%

Length: 2000 words

Unit Coordinator: Jen Mulvogue

#### Aim

The aim of this assessment is for you to demonstrate your understanding of the impact dementia has on a person's life experiences, their psychosocial health and on their behaviour, and how you can support a person with dementia to manage their every-day living.

#### Instructions

Think of a person that you know or know of (it may be someone you have provided care to, or a person you know), who has dementia. Follow the three steps to complete the case study. Note – please use a mnemonic for the name of the person you base your case study on.

Please follow the steps below to complete your assessment task:

Step 1. Write your introduction. Tell the reader what you will be discussing and why you are discussing this.

Step 2. Write the main body of the case study. Within the body of the case study include:

- Presentation of the person who has a diagnosis of dementia - introduce them and describe and provide demographic details
- Discuss their life experiences and their history and how life experiences may impact their psychological health
- Identify two therapeutic interventions to support the person to better manage their everyday living and justify your choice using peer-reviewed literature.
- Explain using peer-reviewed literature how you will evaluate the success of the interventions.

Step 3. Conclusion. Provide a summary of your discussion.

**\*\* please note, if you do not know a person suitable to base your case study on, discuss with the unit coordinator.**

#### Literature and references

In this assessment use at least 10 contemporary references (<5 years) to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers.

#### Requirements

- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on each page in a footer.
- Write in the third-person perspective.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. [The CQUniversity Academic Learning Centre has an online APA Referencing Style Guide.](#)
- The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

#### Resources

- You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- We recommend that you access your discipline specific [library guide](#): the [Nursing and Midwifery Guide](#); [Social Work and Community Services Guide](#).
- We recommend you use EndNote to manage your citations and reference list. More information on how to use [EndNote is available at the CQUniversity Library website](#).
- For information on academic communication please go to the [Academic Learning Centre Moodle site](#). The [Academic Communication section](#) has many helpful resources including information for students with English as a second

language.

· Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission.

## Task Description

Type: Portfolio

Due date: 4 pm (AEST) Tuesday 20th September 2022. Week 10.

Weighting: Pass/Fail

Length: 1000 words

Unit Coordinator: Jen Mulvogue

Aim

The aim of this assessment is to demonstrate your ability to complete a comprehensive assessment of diverse presentations of people who have or are at risk of dementia.

## Instructions

You are writing a portfolio. Throughout the unit you have completed several reflective exercises and activities as part of the course work for this unit. You are required to use the reflections and writings you have made throughout the unit to demonstrate a comprehensive assessment of dementia and your ability to analyse diverse presentations of people who have or are at risk of dementia.

Please follow the steps below to complete your assessment task:

1. Refer back to the reflections and activities (in red font within the Moodle content) and your contributions to these entries. Draw from these (you may decide which ones) reflective exercises, and readings to answer the following questions.

Question 1. In this unit we have explored diverse presentations of people with dementia. Using two of the four presentations of dementia described in this unit:

- ☐ Alzheimer's disease
- ☐ Dementia with Lewy Bodies
- ☐ Vascular dementia
- ☐ Frontotemporal dementia

analyse how the two different dementia presentations impact on a person's lifestyle and needs and consider the care implications.

Question 2. Drawing on your reflections and writings, demonstrate how you would comprehensively assess a person at risk of/or experiencing dementia.

## Literature and references

In this assessment use at least 10 contemporary references (<5 years) to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers.

## Requirements

- ☐ Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- ☐ Include page numbers on each page in a footer.
- ☐ You may write in the first-person perspective or in third-person perspective.
- ☐ Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online ☐ APA Referencing Style Guide.
- ☐ The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

## Resources

- ☐ You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- ☐ We recommend that you access your discipline specific ☐ [library guide](#); the ☐ [Nursing and Midwifery Guide](#); ☐ [Social Work and Community Services Guide](#).

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
