

# DEME20003 Supporting People With Dementia

## Term 1 - 2018

Profile information current as at 03/05/2024 12:34 pm

All details in this unit profile for DEME20003 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

Empowerment and the rights of people with dementia are central themes of this unit. You will examine models of care and best practice guidelines, to determine their capacity to meet the needs of people with dementia. Ethical and legal issues encountered by people with dementia and those caring for them will be identified. You will design strategies to support those living alongside and/or caring for a person with dementia.

### Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

### Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 1 - 2018

- Distance

### Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Class Timetable

### Assessment Overview

#### 1. **Written Assessment**

Weighting: 50%

#### 2. **Written Assessment**

Weighting: 50%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## Assessment Tasks

### 1 Model of Care for Dementia Patients (Written Assessment)

#### Assessment Type

Written Assessment

#### Task Description

##### Task Description

This task is designed to provide you with an opportunity to prepare a report about your chosen model of care for people with dementia. It draws on your knowledge and understanding of frameworks/models designed to meet the needs of the person with dementia and ethical and legal considerations in providing this care.

You have been invited by the board of management of a community service to prepare a report on the services they provide to people with dementia. They have asked you to nominate one client of your choice to illustrate the ethical and legal implications of providing care for people with dementia. You will need to create an example of a person with a dementia and provide the reader with some details about this (fictitious) community service, to demonstrate your mastery of course concepts.

This task requires you to:

#### Step 1.

- Identify a fictitious or identity protected service in the community who provides services to people with dementia including an example of a person who may be a client of this service.
- Identify a model of care for this person with dementia and justify why you have selected this particular model as the most appropriate model for this community service

#### Step 2.

Using your client as an example:

- Discuss the ethical and legal considerations when providing services to a person who has been diagnosed with dementia
- Identify the complexities of ensuring the person with dementia is protected both ethically and legally whilst receiving services
- Analyse how effectively the chosen model of care assists in ensuring ethical and legal responsibilities are met. Provide examples to justify your argument.

#### Step 3.

- Critically discuss potential/actual facilitators and barriers to effective implementation of the model chosen to ensure people with dementia are treated ethically and legally.
- Draw conclusions about the implications of issues for policy and/or practice development within the community service to ensure the ethical and legal needs of the person with dementia are met.

### Assessment Type

Written Assessment

### Task Description

#### Task Description:

This task is designed to provide you with an opportunity to prepare a report about current best practice guidelines and recommendations and their appropriateness for supporting the needs for a person with dementia and their support people.

This task requires you to:

#### Step 1.

- Identify current best practice guidelines and recommendations for supporting a person with dementia and the people living alongside them who provide support.

#### Step 2.

- Identify the complexities of ensuring a person supporting a person with dementia received appropriate support.
- Critically analyse how effectively and to what extent the current guidelines support the person with dementia and their support person.

#### Step 3.

- Critically discuss potential/actual facilitators and barriers to effective implementation of guidelines identified.
- Provide recommendations for supporting people with dementia and the people caring for them based on your findings.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
