Portfolio Activity 1 due on Monday 06 August 2018 (Week 5) Please note: In Preparation

Carefully read through the *Portfolio Case Studies* document (separate file uploaded to Moodle) and **select one** of the two studies as the reference study for these assessed portfolio activities. This assessment provides you with an opportunity to use your practice skills and to demonstrate your understanding of client needs in domestic and family violence contexts and appropriately evaluate a range of practice modalities. Please read the case notes for the selected case study (either Case Study 1 - Bee and Cee, or Case Study 2 - Gee and Aitch). Guidelines: After selecting one of the two case studies, carefully read the case notes and develop a plan to respond to immediate safety needs. Then use information provided (readings, weekly modules) to write up a case assessment. Following this, identify a practice modality that you believe is most suited to the case, and justify your choice (why is it likely to be appropriate and effective in this case and for this population group?). Please write up the assessment as if you would write a report that will go into the clients' case file. It should be phrased professionally, being aware that case files can be subpoenaed by the court. You should include at least eight references from the readings and weekly modules.

The assignment should be presented using Times News Roman 12 point font with 1.5 spacing and all pages should be numbered. Please attach the provided assessment cover page to the assignment and submit it for grading as ONE Word Document.

Notes to Students

Submission of the Portfolio is through the unit Moodle site, Turnitin submission point. You are strongly encouraged to submit a draft prior to the due date to review your Turnitin report prior to making a final submission. You are encouraged to monitor the Moodle site and your student emails for assessment-related information. Read the instructions above carefully and comply with the specific requirements in terms of length, format, structure, required referencing and purpose. **Referencing** The preferred style for CQUniversity School of Nursing and Midwifery is American Psychological Association (APA) referencing. A guide to APA referencing can be accessed through the CQUniversity website.

Details

Written Assessment due on Tuesday 25 September 2018 (Week 11) You are required to thoroughly investigate and address a key issue in Domestic and Family Violence (DFV) practice – the debate over theories underpinning DFV practice. Several theories have been used to inform domestic and family violence practice modalities. Some current thinking has challenged the orthodoxy of ‘industry-standard’ theoretical approaches as embodied in the Duluth model. Compare and contrast the Duluth model with alternative theories relevant to domestic and family violence practice. In constructing your argument, you should demonstrate your knowledge of the Duluth model and critically evaluate it in relation to at least one alternative model. Guidelines: Identify the Duluth model’s origins and evolution in relation to the field of domestic and family violence practice. Compare and contrast it with an alternative theory and assess its breadth and versatility in application. Compare and contrast it with the chosen alternative theory in relation to its applicability and effectiveness with diverse groups of clients. A minimum of eight academic references (i.e. journal articles) published 2010 or later are required for this assessment piece. In addition, you may draw on Australian standards for ethical and professional practice. You are required to present this assignment in essay format using Times News Roman 12 point font with 1.5 spacing. Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
