Assessment Tasks

1 Practical photographic exercises and discussion

Assessment Type

Practical and Written Assessment

Task Description

Each week you will be provided with a series of activities that include photographic tasks and discussion questions. At the start of Week Seven you must submit one Microsoft Word .docx file that contains the following items:

- A photograph for each week's assessable photographic tasks from Weeks One to Six
- A written response to each of the assessable discussion questions from Weeks One to Six
- Documentation outlining your contribution to class discussion, sharing and critique activities for Weeks One to Six

A copy of each photograph should be saved as a file no wider than 1200 pixels, using one of the methods described on the DGTL12005 Moodle site, and inserted into your Word document.

You must keep original, unresized copies of your photographs and make them available to the markers on request.

If you submit a photograph not taken by yourself during term it will be considered plagiarism. A random selection of photographs are checked for originality.

Each written response should adhere to the word length specified in the discussion question. Typically, this will be around 300 to 400 words.

Your participation in sharing and discussion is documented by:

Task Description

Weekly guided discussion, research and practical exercises in the second half of this unit will step you through the process of conceptualising and developing a unified portfolio of ten photographs. You present the result of this work by submitting:

- A portfolio of ten photographs hosted on a free web service of your choice
- A written brief that defines and critically describes the portfolio.

The portfolio

You must choose one only of the following genres to work within

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
