

DGTL12007 Digital Communications Management

Term 2 - 2019

Profile information current as at 02/05/2024 03:57 pm

All details in this unit profile for DGTL12007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Digital media has dramatically affected and expanded the ways in which we communicate. This unit provides a theoretical and applied understanding of digital communications, including web, social and mobile technologies. You will evaluate a range of digital communications platforms and strategies, and critically examine key social, economic, ethical and regulatory issues. Through a combination of theory and practice, you will develop essential skills for communicators in the digital age, and identify emerging trends and innovations.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Q&A discussion forum and Unit evaluations.

Feedback

A number of students recommend provision of clearer advice on what is entailed in devising a digital communications strategy evaluation template for assessment item 3. They also requested specific examples.

Recommendation

Review how this template requirement is incorporated into assessment item 3 and how the requirement is explained. Make changes that include provision of specific examples.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. explain and evaluate digital communications platforms and strategies that are presently used by individuals and organisations
2. develop and reinforce essential skills for communicators in the digital age, including the creation and consumption of digital media via web, social and mobile technologies
3. critically examine key social, economic, ethical and regulatory issues associated with digital communications.

Assessment Tasks

1 Create platform specific content for multiple social media sites

Assessment Type

Practical and Written Assessment

Task Description

Overview

The purpose of this assignment is to help you to think about how to craft online professional communications. It is about adapting content to meet the constraints and specifications of key social media platforms, keeping in mind typical audience expectations each social media 'genre', and best practices for engaging those audiences.

It is a content design challenge. You are to create a layout incorporating image(s) or video still, and text as appropriate, in the form of a pretend post called a 'mock-up' for each of the 5 social media platforms listed. Each graphic layout will look like a real post, but you are NOT required to actually post the message.

The task

Create platform-specific content mock-ups for five (5) popular social media sites, using current layout requirements and dimensions for each site. Those platforms are: Facebook, Instagram, LinkedIn, Pinterest and Twitter.

You will need to research online to find out what the current specifications are (there are some suggestions in Module 2).

Tailor the content to suit the site's typical user demographics, your intended audience, and the site's current page layout requirements. If there is more than one kind of presentation specification for a platform, then choose one. In your introduction, state which you have chosen and why.

You may use Canva.com or other ready-made graphic design templates, or you can design your own if you are proficient with graphic design tools.

Topic and content for the posts

Choose one of your previous module discussions or exercise tasks or create a new story that you will share across multiple platforms, adapting it appropriately for each. There is no set word-count. It is up to you to decide what is suitable and the text may vary, especially where it is determined by a platform's specifications. Support your written information with an image (infographic, photo, video still), hashtags, and/or URL links. Be sure to make use of the affordances that each platform offers in your mock-ups. Once you have created each mock-up save it as a JPG image.

Presentation and submission

In Word insert a title page with the unit name and number, term of offer, assessment name, and your name and student number.

Provide an introduction. This can be an adaptation of your response to the assessment exercise week 1 (comparative review) as the introduction to your portfolio. Then insert the mock-up images. Number them sequentially including the name of the intended site.

Save the Word document to PDF. Upload the.pdf document to Moodle and submit.

Assessment Criteria

1/ Content adapted with one example created for each of the following specific platform media requirements in a recommended format and proportional dimension (as per Module 2 lesson resource):

- Facebook
- Instagram
- LinkedIn
- Pinterest
- Twitter

Up to 1 mark will be applied for each of the above (up to 5 marks for these criteria).

2/ Overall concept makes use of modular copy principle for multi-platform use:

- short sentences and short paragraphs
- arresting image or graphic creates interest and is easy to take in at a glance
- engages with a primary emotion
- has 'voice' appropriate for message and its target audience
- uses site-specific networking affordances (e.g. hash-tags, hyperlinks, tags, comments etc)

Up to 2 marks will be applied for each of the above (up to 10 marks for these criteria).

3/ The required introduction is an adaption for the week 1 blog post and so is marked as part of Assessment Item 2. However, if there is no introduction to this work provided as required, then 2 marks will be deducted from this assessment total.

Up to 15 marks altogether are available for this assessment item.

2 Establish and develop a professional blog site

Assessment Type

Practical and Written Assessment

Task Description

Establish a professional online presence by setting up a personalised website using a free website building service.

Complete the compulsory digital communications tasks, identified as 'Assessment exercises' which are contained in the weekly unit modules; these are identified as 'summative assessment components of Assessment 2 – Professional Blog Site' (PBS). The website and its digital content will be professionally presented and submitted for assessment. The website building service you choose to deliver your assessment requirements will primarily function as a blogging platform.

The site must have the capacity to:

- post plain text, images, infographics and hyperlinks;
- share photos, external links, chat snippets etc.;
- host RSS feeds and HTML-based widgets;
- embed audio including music tracks and podcasts;
- embed videos which can be uploaded as 'in-feed native videos' or imported from websites such as YouTube, TedTalks or Vimeo;
- make use of its own analytics tools or have the capability of integrating another, for example

Google Analytics.

Following is a list of the exercises. Refer to the weekly modules for details.

- Exercise Task 1.1: Preliminary reviews of the various digital tools available on specific popular social network sites: Facebook, Instagram, LinkedIn, Pinterest and Twitter. (>600 words)
- Exercise Task 2.1: Compare four website building products that offer a free subscription option, for example: Wordpress, Wix, Weebly, Tumblr, Blogger, Jimdo, Squarespace. Write a comparative summary. (>300 words)
- Exercise Task 2.2: Set up your professional blog web site (PBS)
- Exercise Task 3.1: Transfer your completed Assessment Exercise tasks 1.1 and 2.1 across to your PBS.
- Exercise Task 4.1: Further comparative reviews of specified social media and networking sites to be posted to your PBS. Refer to the Week 4 module. Post your comparative reviews and Illustrate your post with a Creative Commons image. The image is to be appropriately attributed according to creative commons copyright standards. (>350 words)
- Exercise Task 5.1: Share a specified infographic on your PBS.
- Exercise Task 5.2: Generate a QR code for your PBS.
- Exercise Task 6.1: Research and list the common roles and tasks associated with position descriptions pertinent to digital communications management on your PBS.
- Exercise Task 7.1: Post to your PBS evidence of your completion of the free Google Analytics for Beginners course.
- Exercise Task 7.2: Write a two-minute podcast script on the topic of 'Social Credibility'; produce an MP3 podcast and embed it into your PBS.
- Exercise Task 8.1: Evaluate LinkedIn and post evaluation to your PBS.
- Exercise Task 8.2: Create an RSS feed and share your Exercise 7.2 podcast as a news feed.

3 Present your evaluation of a digital communications management strategy

Assessment Type

Practical and Written Assessment

Task Description

Complete a detailed analysis of the 'digital footprint' of one of the entities listed below. Identify the digital communications strategy as evidenced by the entity's online presence. Evaluate the effectiveness of the digital communications strategy employed. Make commendations about the entity's successful practices and recommendations for improvement where applicable. Illustrate your observations with examples and explain your reasoning with reference to this unit's learning resources. Submit your analysis, evaluation, commendations and recommendations as a multimedia video presentation (8-10 minutes).

1. Select an entity from the list below (or you may choose an entity, but it must be approved by the Unit Coordinator):
 - Getup! <https://www.getup.org.au/>
 - Great Barrier Reef Foundation <https://www.barrierreef.org/>
 - Greenpeace <https://www.greenpeace.org.au/>
 - Oxfam Australia <https://www.oxfam.org.au/>
 - Red Cross Australia <https://www.redcross.org.au/>
2. Using online search techniques, detect the entity's digital footprint (online presence);
 - refer to Module 6, digital communications strategies across sectors;
 - refer to Module 7, information about marketing social networks including guidance on advanced online search techniques;
 - refer to Module 7, specifically Exercise task 7.1 (online search techniques).
3. Develop a set of evaluation questions based on your understanding of what makes an effective digital communications strategy;
 - refer to Module 6, specifically Learning activity 6.1 (preliminary evaluation questions);
 - refer to Module 8, knowledge of digital communications strategies and essential content management tools for implementation of an effective digital communications strategy.
4. Identify the digital communications strategy currently being employed, listing all digital platforms, services and tools being used;

- refer to Module 9, the importance of measuring the success of a digital communications strategy including a range of digital communications evaluation models and methodologies; Learning activity 9.0 and Assessment Exercise task 9 (developing a digital communications evaluation template and carrying out evaluation).

5. Design a simple digital communications strategy evaluation template and use the template to assess the effectiveness of the observed digital communications strategy. Evaluate the effectiveness of the digital communications strategy observed;
- refer to Module 9, advice and guidance on how to measure the success of digital communications strategies and how to develop recommendations to improve those strategies.
6. Draft commendations about the entity's successful practices and recommendations for improvement where applicable. Illustrate your observations with examples and explain your reasoning with reference to this unit's learning resources. Plan and script a multimedia video presentation of 8-10 minutes;
- refer to Module 10, information and guidance on creating different styles of videos for a range of digital platforms and for a variety of purposes and audiences; also specifically Assessment Exercise task 10.2 and Learning activity 10;
- the video presentation can be in the style of a TEDx talk, a narrated presentation in Slideshare or Powerpoint, a speak-to-camera YouTube-style presentation, or another video presentation style that provides visual and audio capabilities and can be embedded as an MP4 file.
7. Record a multimedia video presentation your findings;
- refer to Module 10, discussion links provide advice on how to produce native videos for social networks and digital presentations for websites and blogs.
8. Embed the video into your Professional Blog Site as an 'in-feed native video';
9. Provide a link (URL) to your multi-media presentation embedded in your Professional Blog Site via the DGTL12007 Moodle, Assessment 3 submission portal.

Assessment Due Date

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
