DGTL12008 *Mobile Application Development*

Term 2 - 2024

Profile information current as at 13/05/2024 05:09 am

All details in this unit profile for DGTL12008 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will teach you how to develop application software (apps) for mobile devices, building on your knowledge of programming, user experience design and web technologies. You will learn about key features of the mobile industry, mobile technologies, mobile devices and mobile platforms. Through a combination of theory and practice, you will learn how to develop and optimise content for mobile devices, and how to create user interfaces and navigation controls. You will design, implement, test and debug mobile applications using industry-standard software tools and cross-platform application programming interfaces (APIs).

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.
