General Information

Overview

User experience (UX) design is the practice of designing interactive digital products, services, environments and systems with the aim of supporting and enhancing the user experience. This unit will introduce you to the core theories, principles and methods of user experience design. You will explore the entire UX design process, from initial research and conceptualisation to prototyping, testing and evaluation. You will develop the skills to critically evaluate and design interactive products that meet both user needs and business objectives. By the end of the unit, you will be equipped to apply UX design principles in a variety of contexts, producing usable, accessible, and engaging user experiences.
