General Information

Overview

This unit and its successor Collaborative Digital Media Project Part B require you to apply your accumulated experiences, skills and knowledge, developed throughout the Bachelor of Digital Media, to a real-world capstone project for an authentic client. Working collaboratively as part of a team, you will develop a comprehensive project plan and workflow incorporating essential elements such as project requirements, objectives, scope, audiences, resources, deliverables and timelines. The project plan that your team develops in this unit will become the blueprint for the production stage of the project, which will take place with the same team in the following term in the unit Collaborative Digital Media Project Part B. That is why, when you undertake this unit, you must be prepared to enrol in Collaborative Digital Media Project Part B in the following term to complete the project.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

A student commented that not being able to use or learn about new AI techniques makes them feel they are falling behind current technology.

Recommendation

It is recommended that AI use be permitted in the next offering of the unit, with clear guidance on responsible use to support student learning while maintaining academic integrity.
