Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have your say Student feedback Teaching Reflection

Feedback

Even though rating for Moodle navigation increased; students still commented that the Moodle site was difficult to navigate.

Recommendation

Continue to improve Moodle site of DSMG29003: use module format; ensure details of assessment information in one place on the Moodle and use Moodle book instead of a printed workbook.

Feedback from Have your say Student feedback Teaching Reflection

Feedback

Students appreciated the timely and detailed feedback on assessments.

Recommendation

Continue to provide detailed feedback for DSMG29003.

Feedback from Have your say Student feedback Teaching Reflection

Feedback

Student appreciated engagement of the lecturer particular around explaining assessments. Having access to previous Moodle sites, including feedback from the inaugural unit coordinator helped clarify assessment for the current unit coordinator. However some students were still confused by assessments 2 and 3.

Recommendation

Change assessments for DSMG29003 to be clearly aligned with industry practice as well as theoretical approaches to the concepts explored in the unit.

Feedback from Moodle discussions Student feedback Student assessments Teaching Reflection

Feedback

This textbook is very much focused on ecological systems and climate change. While students could adapt these ideas to the assessment, it is a very deductive and highly theoretical process and any application to 'real life' easily lost.

Recommendation

Remove textbook for DSMG29003 and use a combination of readings and industry reports.
