General Information

Overview

This unit introduces basic microeconomic and macroeconomic theory and the methods of economic analysis. You will review case study examples of the application of economic theory. You will examine the theory of demand and supply, elasticity and how prices of goods and services and the cost and revenue curves are determined. You will compare the key market structures: perfect competition, monopoly, monopolistic and oligopoly and examine why government intervention is necessary in order to correct market failure and achieve allocative and productive efficiency. You will be introduced to the macroeconomic perspective, and its methods for managing the economy. You will be given the opportunity to explore the dynamics of macroeconomic policies, and their effectiveness in achieving national economic objectives.
