General Information

Overview

This unit introduces basic principles of microeconomic and macroeconomic theory and the methods of economic analysis. You will examine the demand-supply model, market equilibrium, elasticity, and how the prices of goods and services, and the cost and revenue curves are determined. You will compare the key market structures: perfect competition, monopoly, monopolistic competition, and oligopoly and examine why government intervention is necessary in order to correct market failure and achieve allocative and productive efficiency. You will be introduced to the key macroeconomic indicators and their role in managing the economy. You will be given the opportunity to explore the dynamics of macroeconomic policies, and their effectiveness in achieving national economic objectives and dynamic efficiency to achieve long term economic growth.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from In online zoom tutorial/workshop sessions

Feedback

Some students find graphs difficult to interpret despite the considerable amount of tutorial time is spent on graphical interpretations, relating theory to real life economic examples.

Recommendation

Investigate ways to assist students to better understand graphical presentation of economic concepts.

Feedback from UC self reflection

Feedback

The hurdle requirement for the first assessment may be linked to non-submission of subsequent assessments resulting in AF outcomes.

Recommendation

Investigate assessment regime to discourage AF outcomes.

Feedback from Student Evaluation Survey

Feedback

Learning resources and assessment items have been well structured and greatly benefit a student's ability to comprehend what is asked of each task.

Recommendation

Continue providing structured Moodle resources and assessment with clear assignment criteria.

Feedback from Teaching teams self-reflection in the meeting and by e-mail

Feedback

Despite 10 weeks teaching with the same volume of learning for Economics core unit, many students are not coming prepared to class.

Recommendation

Review if workshops should return to be in the 11 or 12-week teaching format.

Feedback from Practice quizzes

Feedback

Students learning the unit

Recommendation

Review if there should be some weightage to the quizzes as well so that the students are able to understand the concepts.
