You will develop an applied understanding of the integral place of ICTs in contemporary geographical inquiries related to physical and human aspects of place and space using a Geographical inquiry approach through the Australian Curriculum: Geography (Year 1-6). You will reflect on the knowledge base necessary to structure historical inquiry and teach historical literacy skills that support learners in developing evidence-informed explanations of past events through the Australian Curriculum: History (Year 1-6). You will investigate political and legal systems, and explore the nature of citizenship, diversity and identity in contemporary society through exploring the Australian Curriculum: Civics and Citizenship (Year 3-6). You will develop consumer and financial literacy skills, enterprising capabilities, and the ability to make responsible and informed decisions through engagement with the Australian Curriculum: Business and Economics (Year 5-6). Learning and assessment activities in this unit promote further development of teachers as beginning professionals by consolidating their understandings, practical skills and dispositions for innovation and evaluation of classroom practice, planning and assessment.
