General Information

Overview

In this unit, you will recognise leadership as a socio-cultural construct that is a professional capability expected of early childhood professionals and crucial for ensuring quality learning outcomes for children, the development of integrated services within communities, the ongoing growth of the profession and the thoughtful enactment of policy. You will examine the multiple ways in which leadership is theorised with a particular focus on self-leadership, pedagogical leadership, community leadership, distributed leadership and intentional leadership. Additionally, you will examine leadership as encompassing moral and ethical behaviour, advocacy for children's rights and a commitment to principles of equity and social justice and show understandings of how policy contexts, including legislative frameworks, shape the work of early childhood education leaders. Theoretical tools, engaging with professional networks and the broader community, a disposition to embrace the principles of leadership and practical skills in leadership and management are applied as you deliver a community venture that advocates for young children and their families within the local community and contributes to building social capital.
