

EDEC28002 Pedagogy in Early Childhood Education and Care Settings

Term 3 - 2023

Profile information current as at 29/04/2024 04:04 pm

All details in this unit profile for EDEC28002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

Unit Profile Correction added on 10-11-23

Assessment task 2

TASK DESCRIPTION

Part A. In the previous assessment task, the focus was on pedagogies that teachers enact in the years prior to school contexts. In this assessment task, you will build on your knowledge of early childhood pedagogy to consider appropriate pedagogies in the early years of school. You are required to research pedagogies appropriate in the early years of school that support the holistic development and learning of young children. You are required to provide a synthesis of this research as an appendix to this assessment task.

Part B: Drawing on your developing knowledge of early childhood pedagogies, you are to develop two professional development sessions for F-2 teachers. You need to make explicit how the use of appropriate pedagogies and adult-child interactions in the Foundation to Year 2 years of schooling enables young children to engage in meaningful learning across the curriculum to enhance the general capabilities of literacy and numeracy.

These PD sessions will:

1. Provide theoretical knowledge (perhaps key readings) for the participants
 2. Use vignettes (from websites such as AITSL, and Dept of Education) to show how pedagogies might look in an F-2 classroom where the pedagogies align with what we know about young children, their way of learning, the developing brain, and their development across the domains of development
 3. Identify how the environment supports appropriate pedagogies for children in the F-2 classroom
- Part C: In this final section, you are asked to reflect on why teachers need to engage in continued professional learning during their teaching career and also show evidence of where to access professional learning as a member of the early childhood profession.

Unit Profile Correction added on 10-11-23

Assessment task 1

TASK DESCRIPTION Drawing on scenarios provided on Moodle and engagement with relevant literature, you are required to identify approaches to pedagogy for children:

- Birth - 3 Years
- 3 years - 5 years

As you consider the pedagogical approaches for the two age ranges identified, you need to consider how the pedagogies support the holistic development of the child and align with what we know about the development and characteristics of young children. You need to make explicit how such approaches support inclusive student participation and engagement in classroom activities and contribute to the development of literacy and numeracy knowledge. Particular attention to how the pedagogical choices you make support children and are responsive to the learning strengths and needs of students from diverse linguistic, cultural, religious, and socioeconomic backgrounds (including children with Aboriginal and Torres Strait Islander backgrounds) is required. The centrality of responsive adult-child interactions that support the belonging and development of children needs to be discussed. As part of your consideration, you need to identify the learning opportunities afforded to children in the scenarios and document how the learning opportunities for children reflect the theory you have examined and link to the learning outcomes of the early years learning framework and where appropriate the Kindergarten Guidelines (or similar in your State or Territory). Your documentation may take the form of a learning story but there must be explicit attention to the learning that is occurring. There must be evidence of considering the learning that is occurring in the capabilities of literacy and numeracy. Additional annotation needs to be included to articulate why the teacher made particular pedagogical decisions. You need to reflect on the importance of documentation as a mechanism for engaging parents/carers in the educative process.

General Information

Overview

The pedagogical approaches adopted by teachers within early childhood settings are informed by a range of sources including understandings about how young children learn, emerging research on the importance of the first one thousand days in the life of a child and guidance from research and curriculum frameworks. Play is recognised as a context for learning with the child's right to play and the benefits of play enshrined in national and international policy. In this unit, you will research early childhood pedagogies and theories of play that support the holistic development of young children. Understandings derived by researching pedagogical approaches and learning theory will inform the selection of strategies that are responsive to children's development. The centrality of relationships and responsive language-rich adult-child interactions as pedagogy will be examined also. You will apply practices for gathering, organising, interpreting and sharing data about what children know, can do and understand. Through the analysis of curriculum documents, you will identify opportunities for children's acquisition of literacy and numeracy knowledge in meaningful and developmentally appropriate ways.

Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 3 - 2023

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

1. **Written Assessment**

Weighting: 50%

2. **Presentation**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluations

Feedback

Relevance of content.

Recommendation

Continue to review the content in line with the learning outcomes and assessment tasks for the unit.

Feedback from Student evaluation

Feedback

Upload of recordings.

Recommendation

Recordings to be uploaded following the zoom sessions.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Analyse curriculum documents to identify opportunities for children's acquisition of literacy and numeracy knowledge in meaningful and developmentally appropriate ways
2. Research and apply strategies for gathering, organising, interpreting and sharing data about children's learning with particular attention given to sharing information with important stakeholders (families)
3. Research a range of early childhood teaching strategies/pedagogies and theories of play that support the intellectual, social, emotional and physical development and learning of young children
4. Analyse the learning behaviour of children to document their strengths, needs, interests and capabilities and identify opportunities for learning
5. Synthesise knowledge of child development, learning theory and contemporary research to recommend teaching strategies/pedagogies that are responsive to children's stages of development and characteristics that affect their learning
6. Justify pedagogical approaches and responsive adult-child interactions that support the learning of children from birth to eight years of age with reference to contemporary research literature
7. Identify strategies to support inclusive student participation and engagement in classroom activities.

Learning outcomes and assessment in this unit provide opportunities for students to engage with content and practices in the Australian Professional Standards for Teachers (Graduate Stage) focus areas of:

- 1.1 Physical, social and intellectual development and characteristics of students
- 1.2 Understand how students learn
- 1.3 Students with diverse linguistic, cultural, religious and socioeconomic backgrounds
- 1.4 Strategies for teaching Aboriginal and Torres Strait Islander students
- 1.5 Strategies to support full participation of students with disability
- 2.5 Literacy and numeracy strategies
- 3.3 Using teaching strategies
- 3.5 Use effective classroom communication
- 3.7 Engage parents/carers in the educative process
- 4.1 Support student participation
- 5.1 Assess student learning
- 5.4 Interpret student data
- 6.2 Engage in professional learning and improve practice
- 6.4 Apply professional learning and improve student learning

Term Specific Information

Important note about the structure of this unit:

Please note that the content of Term 3 units is delivered in various ways (some in intensive mode over the first 6 weeks of the Term). Each unit's timetable was created to deliver its unique content best and prepare you to complete assessment tasks effectively, as well as allow some 'downtime' prior to the commencement of the placement for Professional Praxis 3 and the commencement of university Term 1 2023.

To allow this to happen, some online Zoom Tutorial sessions will be conducted over 6 weeks straight with a class occurring in 'non-teaching week' - That is, Week 1 - 4, Non-Teaching Week & Week 5.

Due to the nature of a diverse unit delivery, it is important that you organise your personal diary in order for you to keep up and realise that you should double the usual time allocation to a unit during the intensive mode period for those units.

Please take a look at the Moodle site for each unit for more information.

Please take note below for this specific unit.

This term comprises a 6-week intensive block leading up to the completion of content by December 22, 2023 and Assessment Task 1 is also due on that date.

Assessment task 2 will be due on Week 11 on February 2, 2024. Support will be offered in Week 10 in the form of a drop-in session so that students can discuss their assessment before submission.

Assessment Tasks

1 Assessment Task 1: Reflective Practice Assignment

Assessment Type

Written Assessment

Task Description

Examine policy documents that guide the practice of early childhood educators to identify key messages about the significance of the early years. Explain the emergence of leadership as an essential component of the work of early childhood professionals. Your explanation should trace the historical origins of leadership constructs and their development as a process considered integral to guiding the professional learning of colleagues and establishing partnerships that contribute to children's positive dispositions for learning. Emerging understandings of leadership that are responsive to contemporary early childhood education and care settings need to be examined also.

Construct and clearly describe two scenarios where leadership intervention could be used to develop shared understandings of communication, caregiving, and pedagogical practices that support the safety, well-being, and learning of children and foster effective and respectful partnerships between families and educators. Both scenarios need to consider the strategies for involving parents/carers in the educative process. One of these scenarios must focus specifically on the legislative requirements and strategies that support the participation and learning of students with disability and the second one can be of your choosing.

Describe the principles and strategies you would use to guide the development of a centre policy in response to the scenarios and lead the professional learning and implementation of the proposed practices and strategies with colleagues in an early childhood education and care service.

Your response should include a reflective component that clearly explains your approach to leadership and defends the strategies you have used to create a professional learning community committed to the well-being, safety, and improved educational outcomes of children with diverse characteristics and needs.

Assessment Due Date

Week 6 Friday (22 Dec 2023) 11:45 pm AEST

Return Date to Students

Week 9 Monday (15 Jan 2024)

Weighting

50%

Assessment Criteria

Research and explicate the key messages about the significance of the early years included in policy texts including shared values

- Explain leadership as a feature of membership of the early childhood profession in historical and contemporary contexts
- Construction of scenarios that model how leadership of (1) learning about legislative requirements and strategies

support the participation and learning of students with disability and (2) pedagogy in early childhood that supports the learning of all children

- Describe the principles and strategies to guide the development of a centre policy and lead professional learning in relation to both scenarios
- Explanation of how leadership supports the involvement of and partnership with parents/carers in the educative process
- Explicate and justify approaches to selected leadership strategies to create a professional learning community committed to improving educational outcomes for all children
- Effective, scholarly and professional communication in accordance with accepted academic conventions APA 7th

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Learning Outcomes Assessed

- Analyse curriculum documents to identify opportunities for children's acquisition of literacy and numeracy knowledge in meaningful and developmentally appropriate ways
- Research and apply strategies for gathering, organising, interpreting and sharing data about children's learning with particular attention given to sharing information with important stakeholders (families)
- Research early childhood pedagogies and theories of play that support the intellectual, social, emotional and physical development and learning of young children
- Analyse the learning behaviour of children to document their strengths, needs, interests and capabilities and identify opportunities for learning
- Synthesise knowledge of child development, learning theory and contemporary research to recommend teaching strategies that are responsive to children's stages of development and characteristics that affect their learning
- Justify pedagogical approaches and responsive adult-child interactions that support the learning of children from birth to eight years of age with reference to contemporary research literature.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research

2 Assessment Task 2: Presentation and accompanying documentation

Assessment Type

Presentation

Task Description

Within early childhood settings, leading pedagogy is an important dimension of the work of leaders and, as such, leadership is highlighted in Standard 7 of the National Quality Standards (ACECQA, 2020). Underpinning the enactment of leadership is a commitment to reflecting on and continuously working to improve practice and "curriculum quality, equity, and the wellbeing and inclusion of each child" (ACECQA, 2020, p. 302).

This task requires that you create a presentation that identifies challenges and dilemmas that early childhood educators may face in demonstrating cultural competence and responding to the impact of culture, cultural identity and linguistic background on the participation, engagement and learning of children and families from different cultures, including children from Aboriginal and Torres Strait Islander backgrounds.

The presentation should summarise the guidance derived from policy, codes of ethics and conduct for the profession, and independent research to promote the understanding of colleagues of their legislative, practical, and ethical responsibilities as culturally competent educators.

Your presentation should be designed to include opportunities for modeling, discussing, and reflecting on practices, teaching strategies, and interactions that support culturally diverse learners including Aboriginal and Torres Strait Islander children and families.

Finally, identify sources of ongoing learning and engagement with external professionals and community representatives that expand teachers' professional knowledge and skills for ethical and culturally competent teaching practice.

Additionally, you need to explicate the importance of reflection for leadership practice.

Additionally, your presentation must include:

1. An extensive notes page for each slide including references
2. A summary of relevant policy texts and identification of implications for legislative, practical, and ethical responsibilities as culturally competent educators.

Submission

Online

Learning Outcomes Assessed

- Analyse curriculum documents to identify opportunities for children's acquisition of literacy and numeracy knowledge in meaningful and developmentally appropriate ways
- Research early childhood pedagogies and theories of play that support the intellectual, social, emotional and physical development and learning of young children
- Synthesise knowledge of child development, learning theory and contemporary research to recommend teaching strategies that are responsive to children's stages of development and characteristics that affect their learning
- Justify pedagogical approaches and responsive adult-child interactions that support the learning of children from birth to eight years of age with reference to contemporary research literature.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
