

EDSE11023 *Metal Technologies and Design*

Term 1 - 2019

Profile information current as at 30/04/2024 02:38 am

All details in this unit profile for EDSE11023 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit provides an introduction to knowledge of the origins, structure, characteristics, properties and uses of fabricated materials such as metal to construct and critically evaluate a range of products. It includes production design processes and occupational health and safety considerations in the demonstration of practical and theoretical knowledge and skills that are necessary to teach Industrial Technology and Design in the middle years of schooling (7-10). Knowledge of this and other fabricated materials and their use in production processes will be gained through working with industrial machinery, digital and hand tool technologies. Students will design, develop, adapt and evaluate projects utilising critical aspects of knowledge about and develop the hands-on skills of working with metal and other fabricated materials.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2019

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Assessment Overview

1. **Online Quiz(zes)**

Weighting: 20%

2. **Written Assessment**

Weighting: 30%

3. **Practical Assessment**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student

Feedback

Assessment task information

Recommendation

Continue to review content and assessment material.

Feedback from Student

Feedback

Res school was a valuable experience that really helped to understand what is expected of me when i finish my degree

Recommendation

Continue to provide great learning opportunities at the Residential School.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate knowledge and understanding of metal industry practices
2. Apply theories of materials fabrication, specifically metal, underpinning the content of middle years industrial technology and design teaching
3. Investigate processes used to produce fabricated materials that may be used in school-based projects
4. Explain relevant facility maintenance processes and procedures in a secondary school workshop
5. Critically evaluate specific applications for metal working tools and equipment used in Middle Years of Learning
6. Apply Occupational Health and Safety legislation in the school work place
7. Analyse preferred implementation processes for working with fabricated materials through sequenced design processes
8. Demonstrate a professional capacity to communicate and work in peer learning teams.

Schedule

Week 1 - 11 Mar 2019

Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Health and Safety in the Workshop, Pages 1 -10	Assessment 1: Quiz

Week 2 - 18 Mar 2019

Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Metals- Classification, Properties & Heat Treatment, Pages 105 - 107	Assessment 1: Quiz

Week 3 - 25 Mar 2019

Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Metals- Iron & Steel, Pages 107 - 112	Assessment 1: Quiz

Week 4 - 01 Apr 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Reading: Junior Workshop A & B	Metals- Sheet Steel Products & Sheet Steel Manufacture, Pages 112 - 118	Assessment 1: Quiz
Week 5 - 08 Apr 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Compulsory Residential School: 08/04/2019 to 10/04/2019.	During this week students will be assessed on their knowledge and understanding of processes and procedures. Students will be required to complete a number of school projects aligned to certain year levels.	Assessment 3: Practical Assessment: Compulsory Residential School Assessment task 3: Practical Assessment: Compulsory Residential School Due: Week 5 Wednesday (10 Apr 2019) 5:00 pm AEST
Vacation Week - 15 Apr 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Enjoy your break for this week.		
Week 6 - 22 Apr 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Metals- Copper, Pages 118 - 122	Assessment 1: Quiz
Week 7 - 29 Apr 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Metals- Aluminium, Pages 122 - 124	Assessment 1: Quiz
Week 8 - 06 May 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Tools & Machines- Hand Tools, Metalwork Stakes & Portable Power Tools, Pages 125 - 138	Assessment 1: Quiz
Week 9 - 13 May 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Tools & Machines- The Metal lathe & The Drilling Machine, Pages 138 -150	Assessment 1: Quiz
Week 10 - 20 May 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Tools & Machines- Seams and Edges & Joining with rivets and screws, Pages 150-154	Assessment 1: Quiz
Week 11 - 27 May 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Reading: Junior Workshop A & B	Tools & Machines- Soft soldering, Art Metalwork & Decorative Surface Finishing, Pages 154 - 159	Assessment 1: Quiz
Week 12 - 03 Jun 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Assessment 1: Quizzes due 23.59pm 9/6/19 Written Assessment: due 5.00pm 7/6/19		Assessment 1: Quizzes due 23.59pm 9/6/19 Written Assessment: due 5.00pm 7/6/19 Assessment task 2: Written Assessment Due: Week 12 Friday (7 June 2019) 5:00 pm AEST

Review/Exam Week - 10 Jun 2019

Assessment Tasks

1 Assessment 1: Quizzes

Assessment Type

Online Quiz(zes)

Task Description

10 Multi-Choice Quizzes: 20% total marks

Quizzes will be based on weekly readings from the assigned text book. Quizzes will be available on the Moodle website until 23.59pm 9/6/19. Students will be allowed a maximum of 1 hour and two attempts to complete each quiz.. The highest scoring attempt will be used for grading.

Please note that results from all 10 quizzes contribute to the overall mark of 20%

Number of Quizzes**Frequency of Quizzes****Assessment Due Date**

Quizzes due 23.59pm 9/7/19

Return Date to Students

Assessment will be returned after moderation and grade certification

Weighting

20%

Assessment Criteria

Students will be assessed over the duration of the Res School in relation to the following:

- Knowledge and understanding and application of workshop processes
- Ability to work independently with limited assistance

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

Submission

Online

Learning Outcomes Assessed

- Demonstrate knowledge and understanding of metal industry practices

Graduate Attributes

- Communication
- Problem Solving
- Ethical practice

2 Assessment task 2: Written Assessment

Assessment Type

Written Assessment

Task Description

Written Assignment

Students are required to develop a Project suitable for either a year 7, year 8, year 9 or year 10 student in a Metalwork workshop.

The assignment will consist of : Year Level the Project is targeting, an accurate Dimensioned Working Drawing of the Project, a Detailed Work Procedure, lesson plans for the duration of the project and a Criteria Sheet. Further details of the written assignment will be provided during the Residential School. An example of a suitable unit plan has been made available under the Resources Tab on the Moodle Website.

Assessment Due Date

Week 12 Friday (7 June 2019) 5:00 pm AEST

Return Date to Students

Assessment will be returned after moderation and grade certification

Weighting

30%

Assessment Criteria

Students are assessed on the following criteria:

- Ability to present graphical information
- Ability to express and develop an idea
- Ability to present work effectively.

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

Submission

Online

Learning Outcomes Assessed

- Apply theories of materials fabrication, specifically metal, underpinning the content of middle years industrial technology and design teaching
- Investigate processes used to produce fabricated materials that may be used in school-based projects
- Explain relevant facility maintenance processes and procedures in a secondary school workshop
- Critically evaluate specific applications for metal working tools and equipment used in Middle Years of Learning
- Apply Occupational Health and Safety legislation in the school work place
- Analyse preferred implementation processes for working with fabricated materials through sequenced design processes
- Demonstrate a professional capacity to communicate and work in peer learning teams.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Cross Cultural Competence

3 Assessment task 3: Practical Assessment: Compulsory Residential School

Assessment Type

Practical Assessment

Task Description

Compulsory Residential School 8/04/19 - 10/04/19 50% total marks

Residential school introduces students to projects which target the junior year levels. Students will be using hand tools, machinery and equipment to fabricate five projects. Residential School gives students the opportunity to develop their hand skills, knowledge & understanding of workshop procedures and processes. Students will be assessed on the quality and presentation of their five projects, in addition to their knowledge and understanding and application of workshop processes, and their ability to work independently with limited assistance.

Assessment Due Date

Week 5 Wednesday (10 Apr 2019) 5:00 pm AEST

Return Date to Students

Practical projects assessed over the duration of Residential School

Weighting

50%

Assessment Criteria

Students will be assessed over the residential in relation to the following:

- Practical expertise
- Quality and presentation of their five projects
- Knowledge and understanding and application of workshop processes
- Ability to work independently with limited assistance.

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

- Team Work
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
