General Information

Overview

Youth is the period between childhood and adult age. Understanding youth is the focus of this unit. This understanding is developed through an opportunity to examine a number of complex issues pertaining to being an adolescent in Australian society. These examinations include an analysis of the role secondary school teachers have on developing effective skills to increase student engagement and achievement in all discipline area. In this unit, you will also conduct an examination of your own literacy and numeracy skills and your responsibility to develop your personal skills to improve the outcomes of your future students and professional standing.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Assessment Tasks

1 Assessment Task 1 - Research Paper

Assessment Type

Written Assessment

Task Description

The task asks you to prepare a **research paper**. To do this, you must first research a chosen topic and then prepare and present a structured paper (essay) that:

- defines and explains the topic
- identifies how and why the issue impacts adolescents
- discusses the implications for the education of secondary aged students and their teachers
- and makes recommendations for classroom practice and/or a whole school approach.

Step 1

Choose an issue or concern specific to students in the secondary phase of their education.

Examples may include, but are not limited to:

- Mental Health
- Risk taking behaviours e.g. Alcohol, drug, crime
- Equity and discrimination
- Rural isolation
- Access to technology
- Youth (sub)culture/s
- Body image, self-identity or sexuality
- Any other issue specific to adolescence that results in disengagement from learning or school.

You will notice that many of these topics overlap with course topics in the first four weeks of the term.

Step 2

Research the topic using the library on-line materials and your textbook. It is suggested that you read information from at least seven different sources prior to beginning the construction of your paper. From your readings, define the boundary of your paper. For example, you might choose the topic of youth subcultures. This topic is too broad for a 2000 word paper. So to narrow the topic you might consider a specific topic with youth subcultures, e.g. the impact of being a 'gamer' on students' learning and their level of engagement in school. Please check your topic with your lecturer. There will be more information on the research process provided throughout the Links to Assessment on the Moodle site.

Step 3

Write the research paper. **This step includes considering a structure, writing a first draft, editing and referencing a second draft to produce a final piece for submission.**

The following headings should guide the writing of your research paper:

Provide an explanation of your defined chosen topic.

Discuss and justify how and why this topic impacts adolescents as stated in the research.

Discuss the implications the topic has on the levels of engagement and learning outcomes for youth and their teachers' practice.

Conclude by making recommendations for how teachers, whole schools and education systems could respond effectively to address the implications of the topic and assist young people to achieve at school based on your research and what the content in this course suggests as best practices for secondary school teaching.

Support all of your work with links to current research in the area of adolescent development. This research must include journal articles, textbooks and professional readings. You may include sources from the Moodle site but you should also include some information from data base searches.

The paper is to be written in third person and follow the recommended structure provided by the ALC.

Length: 2000 words

2 Assessment Task 2 - Online Quizzes

Assessment Type

Online Quiz(zes)

Task Description

This task requires you to demonstrate an appropriate level of personal competence in communication, literacy and numeracy required for teaching. You will complete **Five on-line quizzes** one per week for each from 7 to 11. The purpose of the quizzes is to show your personal competence in communication, literacy and numeracy appropriate to model effective speaking, reading, writing, spelling, oral language and numerate thinking for youth. (Cumulative score out of 25)

Essential preparation:

You **must** complete the readings and activities for each week as some of the questions are based on the information contained in the readings

Other questions are designed to test your application of basic skills in regards to content about communication, literacy and numeracy concepts that are important to your development as a teacher.

Further information:

You must complete the weekly quiz in the weeks in which they are allocated. (i.e. Quiz 1 must be completed in week 7, Quiz 2 in week 8, Quiz 3 in week 9, Quiz 4 in week 10, Quiz 5 in week 11). Each weekly quiz will be open for all of that week only (i.e. Week 8 quiz will be open from Monday of Week 7 through to the following Sunday - so you have 7 days to complete the quiz). If you have extenuating circumstances that align with the extension policy, you may request an alternative time to complete your quiz. To do so you must submit an extension request through the Support link and provide documentation to support your request.

You have 1 attempt only at each quiz.

There are 10 questions per quiz, each question worth 0.5 of a mark.

Each quiz is timed - you have 30 minutes to complete each quiz.

Once you complete each of the quizzes you will know your score, but you will not know what answers were correct or incorrect. This information will be released to you at the end of the week once the quiz has been closed for that week. You will not be able to go back in and attempt the quiz again.

Your responses for each quiz will be recorded for assessment purposes.

3 Assessment Task 3 - Critical Reflection

Assessment Type

Critical Review

Task Description

This task requires you to demonstrate an appropriate level of personal competence in communication, literacy and numeracy required for teaching through a **critical reflection** of your skills. Your reflection will outline your strengths and professional challenges relating to

personal communication, literacy and numeracy competency that demonstrates an understanding of impact on students and includes a plan for how you aim to improve your competency prior to your graduation.

Sources - using the feedback given to you from the first task, your experiences in the weekly activities, the Quizzes and your reflection on your personal circumstances, you are to write a 1000 word critical reflection outlining your strengths and professional challenges relating to your levels of personal communication, literacy and numeracy competency.

This critical reflection must:

- outline what you believe are **your strengths and professional challenges in relation the communication, literacy and numeracy standards** with supporting examples drawn from the sources listed above (**approx 400 words**)
- outline what you believe are **the consequences of your current personal skill level** for both yourself and your future students (**approx 300 words - include academic references**)
- outline **how you intend to improve your** personal communication, literacy and numeracy skill level in order for you to be prepared to competently teach secondary students (**approx 300 words - include specific learning activities or sources**)

This reflective piece allows you to demonstrate the following two Professional standards:

Professional Standard 6.2 Engage in professional learning and improve practice - *Understanding the relevant and appropriate sources of professional learning for teachers**

Professional Standard 6.4 Apply professional learning and improve student learning - *Demonstrate an understanding of the rationale for continued professional learning and the implications for improved student learning**.

*A full copy of the AITSL Professional Standards for Australian Teachers is available [here](#).

This reflective statement is due Friday 4-June-2021 (week 12) and must be uploaded through the Assessment Task 3 link on the Moodle site.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
