General Information

Overview

The focus of this unit is on preparing pre-service teachers to teach in junior secondary school contexts (Years 7 – 9). In this unit, emphasis is placed on helping you understand strategies and processes to ensure the bridge between primary and secondary school is safe, strong and consistent for all students. Teaching in junior secondary school contexts requires a particular pedagogical approach where learned information must be meaningful and links to the world beyond the classroom are made. You will engage with the six guiding principles of junior secondary school teaching, namely, distinct identity; quality teaching; student wellbeing; parent and community involvement; leadership; and, local decision-making. Within this context, the role secondary school teachers have in developing effective, useful and efficient strategies that can be used in any discipline area to increase student understanding and improve overall achievement and motivation will be explored.
