

# ENAG11008 Professional and Sustainable Engineering Practice

## Term 1 - 2022

Profile information current as at 19/05/2024 12:18 pm

All details in this unit profile for ENAG11008 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

In this unit, you will explore the role of engineers in the context of sustainable engineering design and practice. In a team, you will be required to research issues, evaluate the quality of the information obtained and prepare reports on an issue involving sustainable development and practice. You will develop communication, problem-solving and critical thinking skills, which will assist you to function effectively in the engineering workplace and as collaborative learners. In this unit, you must complete compulsory practical activities. Refer to the Engineering Undergraduate Course Moodle site for proposed dates.

### Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

### Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 1 - 2022

- Mixed Mode

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Class Timetable

#### [Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### [Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

### Assessment Overview

#### 1. **Written Assessment**

Weighting: 30%

#### 2. **Written Assessment**

Weighting: 30%

#### 3. **Presentation and Written Assessment**

Weighting: 35%

#### 4. **Peer assessment**

Weighting: 5%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## CQUniversity Policies

**All University policies are available on the [CQUniversity Policy site](#).**

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student feedback

##### **Feedback**

The residential school needed improved organisation as multiple subjects were covered over the period.

##### **Recommendation**

The residential school now only caters for ENAG11008 and is focused on providing students with a thorough introduction to the unit as well as additional skills to assist with the remainder of their course.

#### Feedback from Teaching team feedback

##### **Feedback**

There were two SPA requirements focusing on teamwork for assignment 4. As the time spent as a team was limited, this seemed excessive.

##### **Recommendation**

One SPA to be scheduled to evaluate team performance at the end of assignment 4.

## Unit Learning Outcomes

### **On successful completion of this unit, you will be able to:**

1. Develop an understanding of the challenges and opportunities with sustainable development and assess current applications in engineering practice
2. Investigate and discuss the interdependence of sustainable development and ethics in professional engineering practice
3. Identify appropriate sources of information, research an issue and evaluate the quality of the information obtained
4. Prepare technical reports and presentations to communicate the results and limitations of investigations
5. Demonstrate effective teamwork and communication skills by supporting collaborative problem solving and learning
6. Demonstrate effective time, team and project management skills.

The Learning Outcomes for this unit are linked with the Engineers Australia Stage 1 Competency Standards for Engineering Associates in the areas of 1. Knowledge and Skill Base, 2. Engineering Application Ability and 3. Professional and Personal Attributes at the following levels::

#### **Introductory**

- 1.4 Discernment of engineering developments within the practice area. (LO: 1N 2N 3N)
- 1.6 Understanding of the scope, principles, norms, accountabilities and bounds of sustainable engineering practice in the area of practice. (LO: 1I 3A 4A 5A)
- 2.1 Application of established technical and practical methods to the solution of well-defined engineering problems. (LO: 4N)
- 2.4 Application of systematic project management processes. (LO: 1N 2N 4N)
- 3.1 Ethical conduct and professional accountability. (LO: 2N 4N)
- 3.2 Effective oral and written communication in professional and lay domains. (LO: 3N 4N 5N)
- 3.3 Creative, innovative and pro-active demeanour. (LO: 4N)
- 3.4 Professional use and management of information. (LO: 1N 2N 3N 4N)
- 3.5 Orderly management of self, and professional conduct. (LO: 5N 6N)
- 3.6 Effective team membership and team leadership. (LO: 4N 5N 6N)

*Note: LO refers to the Learning Outcome number(s) which link to the competency and the levels: N – Introductory, I – Intermediate and A – Advanced.*

Refer to the Engineering Postgraduate Units Moodle site for further information on the Engineers Australia's Stage 1 Competency Standard for Professional Engineers and course level mapping information)

<https://moodle.cqu.edu.au/course/view.php?id=11382>

## Alignment of Learning Outcomes, Assessment and Graduate Attributes

 N/A Level	 Introductory Level	 Intermediate Level	 Graduate Level	 Professional Level	 Advanced Level
---	--	--	--	--	--

### Alignment of Assessment Tasks to Learning Outcomes

Assessment Tasks	Learning Outcomes					
	1	2	3	4	5	6
1 - Written Assessment - 30%		•				
2 - Written Assessment - 30%	•	•	•	•		
3 - Presentation and Written Assessment - 35%	•		•	•	•	•
4 - Peer assessment - 5%					•	•

### Alignment of Graduate Attributes to Learning Outcomes

Graduate Attributes	Learning Outcomes					
	1	2	3	4	5	6
1 - Communication	•	•	•	•	•	•
2 - Problem Solving		•		•		•
3 - Critical Thinking	•	•		•	•	
4 - Information Literacy	•		•	•		
5 - Team Work			•	•	•	•
6 - Information Technology Competence			•	•	•	
7 - Cross Cultural Competence	•	•			•	•
8 - Ethical practice		•		•		
9 - Social Innovation						
10 - Aboriginal and Torres Strait Islander Cultures						

## Textbooks and Resources

### Textbooks

ENAG11008

#### Prescribed

#### **Engineering Your Future: An Australasian Guide**

Edition: 4th (2019)

Authors: David Dowling, Roger Hadgraft, Anna Carew, Tim McCarthy, Doug Hargreaves, Caroline Baillie, Sally Male  
John Wiley & Sons Australia

Australia

ISBN: 9780730369165

Binding: eBook

[View textbooks at the CQUniversity Bookshop](#)

### IT Resources

**You will need access to the following IT resources:**

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)

## Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)

For further information, see the Assessment Tasks.

## Teaching Contacts

**Claire Skipper** Unit Coordinator

[c.skipper@cqu.edu.au](mailto:c.skipper@cqu.edu.au)

**Ashfaque Chowdhury** Unit Coordinator

## Schedule

### Week 1 - 07 Mar 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"><li>• Introduction to the unit.</li><li>• Teaching Team Contacts and how to communicate with lecturers and fellow classmates.</li><li>• Overview of assessments and submission dates.</li><li>• Learning Resources - information on weekly Zoom tutorial and residential school timetable. Information on unit textbook and Moodle resources.</li><li>• Introduction to the Academic Learning Centre.</li></ul>		Commence Assessment 1 (Reflective paper-Who is an Engineering Associate)

### Week 2 - 14 Mar 2022

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

- What is engineering and what is the role of an engineer and engineering associate.
  - Introduction to various engineering disciplines.
  - Discussion of assessment 1.
- Introduction to reflective writing and why mastering the skill of reflection is important for engineers.

Text book: Chapter 1 – What is engineering (The Engineers Australia Competency framework section 1.3)

### Week 3 - 21 Mar 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>• Introduce Engineers Australia.</li> <li>• Introduce and review the stage 1 competencies for an Engineering Associate.</li> </ul>		Residential school to be held at the main Rockhampton campus on Saturday 26th and Sunday 27th March

### Week 4 - 28 Mar 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>• What is sustainable engineering and why is it important.</li> <li>• Frameworks for sustainable development.</li> </ul>	Textbook: Chapter 3 - Sustainable Engineering	Commence Assessment 2(Sustainable Development Critique)  <b>Assessment 1- Reflective Paper: Who is an Engineering Associate</b> Due: Week 4 Wednesday (30 Mar 2022) 11:45 pm AEST

### Week 5 - 04 Apr 2022

Module/Topic	Chapter	Events and Submissions/Topic
How to apply various methods of assessment to determine the sustainability of a solution. Improving information literacy and identifying reputable sources of information.	Textbook: Chapter 9 – Understanding the Problem	

### Vacation Week - 11 Apr 2022

Module/Topic	Chapter	Events and Submissions/Topic
Use this time catch up or look ahead at topics.		

### Week 6 - 18 Apr 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>• Review various examples of engineering projects and processes.</li> </ul>		

### Week 7 - 25 Apr 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>• Understanding the engineering method.</li> </ul>	Textbook: Chapter 2 – The Engineering Method	Commence Assessment 3 (Feasibility Report)  <b>Assessment 2 - Sustainable Development Critique</b> Due: Week 7 Friday (29 Apr 2022) 11:45 pm AEST

### Week 8 - 02 May 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>• Effective communication for reports and presentations.</li> <li>• Writing and structuring a feasibility report.</li> </ul>	Textbook: Chapter 7 and 8 – Understanding communication and communication skills	

### Week 9 - 09 May 2022

Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>Introducing the Engineers Australia Code of Ethics.</li> <li>Understanding the professional responsibility of engineers and working as a team</li> </ul>	Textbook: Chapter 4 – Professional Responsibility and Ethics Textbook: Chapter 6 – Collaborating with others	
<b>Week 10 - 16 May 2022</b>		
Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>What is a risk assessment</li> </ul>	Textbook: Chapter 13.3 - Develop a risk-management plan for a project	
<b>Week 11 - 23 May 2022</b>		
Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>Review of unit.</li> <li>Examples of feasibility studies</li> </ul>		
<b>Week 12 - 30 May 2022</b>		
Module/Topic	Chapter	Events and Submissions/Topic
<ul style="list-style-type: none"> <li>Revision and where to from here - your onward learning journey</li> </ul>		Commence Assessment 4 - SPA
<b>Review/Exam Week - 06 Jun 2022</b>		
Module/Topic	Chapter	Events and Submissions/Topic
		<b>Assessment 3- Team Feasibility Report</b> Due: Review/Exam Week Tuesday (7 June 2022) 11:45 pm AEST <b>Assessment 4- Self and Peer Evaluation</b> Due: Review/Exam Week Tuesday (7 June 2022) 11:45 pm AEST
<b>Exam Week - 13 Jun 2022</b>		
Module/Topic	Chapter	Events and Submissions/Topic

## Assessment Tasks

### 1 Assessment 1- Reflective Paper: Who is an Engineering Associate

#### Assessment Type

Written Assessment

#### Task Description

Prepare a typed Reflective Paper by studying the resources provided for this assignment on Moodle. You will need to become familiar with the Reflective Writing Guide to ensure your paper articulates reflective thoughts rather than just restating the resources provided. There is not a strict word limit, either minimum or maximum, but you should be able to prepare approximately two to three pages for this assignment.

#### Assessment Due Date

Week 4 Wednesday (30 Mar 2022) 11:45 pm AEST

#### Return Date to Students

Week 6 Wednesday (20 Apr 2022)

#### Weighting

30%

#### Minimum mark or grade

25%

#### Assessment Criteria

A Marking Rubric is provided on Moodle that includes indicators of attainment at the 'Sound', 'Good' and 'Excellent' level for each component of the assignment

## Referencing Style

- [Harvard \(author-date\)](#)

## Submission

Online

## Submission Instructions

Please submit through Moodle as a single pdf file.

## Learning Outcomes Assessed

- Investigate and discuss the interdependence of sustainable development and ethics in professional engineering practice

## 2 Assessment 2 - Sustainable Development Critique

### Assessment Type

Written Assessment

### Task Description

Prepare a typed critique on the topic of sustainable development. For the written report submission, you must define what sustainable development is, identify a suitable engineering project or process and critique it. You will identify opportunities and barriers for the sustainability of this practice. You will need to correctly reference your information sources and ensure that your information is reputable. There is not a strict word limit, either minimum or maximum, but you should prepare approximately three to four pages for this assignment.

### Assessment Due Date

Week 7 Friday (29 Apr 2022) 11:45 pm AEST

### Return Date to Students

Week 9 Friday (13 May 2022)

### Weighting

30%

### Minimum mark or grade

25%

### Assessment Criteria

A Marking Rubric is provided on Moodle that includes indicators of attainment at the 'Sound', 'Good' and 'Excellent' level for each component of the assignment.

## Referencing Style

- [Harvard \(author-date\)](#)

## Submission

Online

## Submission Instructions

Please submit through Moodle as a single pdf file.

## Learning Outcomes Assessed

- Develop an understanding of the challenges and opportunities with sustainable development and assess current applications in engineering practice
- Investigate and discuss the interdependence of sustainable development and ethics in professional engineering practice
- Identify appropriate sources of information, research an issue and evaluate the quality of the information obtained
- Prepare technical reports and presentations to communicate the results and limitations of investigations

## 3 Assessment 3- Team Feasibility Report

### Assessment Type

Presentation and Written Assessment

### Task Description

In your team, prepare a typed Feasibility Report for promoting sustainable development. Using the individual critiques of sustainable development completed by your team members in Assignment 2, decide on an engineering project or process to investigate further. You should explore options to increase the sustainability of this practice by using the 'engineering method' to problem solve any opportunities or barriers to sustainable development. You will need to

become familiar with the report template provided on Moodle. There is not a strict word limit, either minimum or maximum, but the main body of your report should be approximately five to six pages to sufficiently examine key aspects of this practice.

**Assessment Due Date**

Review/Exam Week Tuesday (7 June 2022) 11:45 pm AEST

**Return Date to Students**

Exam Week Friday (17 June 2022)

**Weighting**

35%

**Minimum mark or grade**

25%

**Assessment Criteria**

In your team, prepare a typed Feasibility Report for promoting sustainable development. Using the individual critiques of sustainable development completed by your team members in Assignment 2, decide on an engineering project or process to investigate further. You should explore options to increase the sustainability of this practice by using the 'engineering method' to problem solve any opportunities or barriers to sustainable development. You will need to become familiar with the report template provided on Moodle. There is not a strict word limit, either minimum or maximum, but the main body of your report should be approximately five to six pages to sufficiently examine key aspects of this practice.

**Referencing Style**

- [Harvard \(author-date\)](#)

**Submission**

Online Group

**Submission Instructions**

Please submit through Moodle as a single pdf file. Only one person from the team must submit.

**Learning Outcomes Assessed**

- Develop an understanding of the challenges and opportunities with sustainable development and assess current applications in engineering practice
- Identify appropriate sources of information, research an issue and evaluate the quality of the information obtained
- Prepare technical reports and presentations to communicate the results and limitations of investigations
- Demonstrate effective teamwork and communication skills by supporting collaborative problem solving and learning
- Demonstrate effective time, team and project management skills.

## 4 Assessment 4- Self and Peer Evaluation

**Assessment Type**

Peer assessment

**Task Description**

You must complete a Self and Peer-Evaluation Questionnaire of yourself and your teammates as provided on Moodle. Peer evaluation is anonymous and feedback is automatically provided through Moodle

**Assessment Due Date**

Review/Exam Week Tuesday (7 June 2022) 11:45 pm AEST

**Return Date to Students**

Review/Exam Week Friday (10 June 2022)

**Weighting**

5%

**Assessment Criteria**

Peer evaluation scores are determined using the average of your performance ratings from teammates on key aspects of teamwork. Refer to Moodle for further information.

**Referencing Style**

- [Harvard \(author-date\)](#)

**Submission**

Online

**Learning Outcomes Assessed**

- Demonstrate effective teamwork and communication skills by supporting collaborative problem solving and learning
- Demonstrate effective time, team and project management skills.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

**What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

**Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

**Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

**What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
