ENEC20002 *Steel and Masonry Design*

Term 2 - 2027

Profile information current as at 07/09/2026 09:17 pm

All details in this unit profile for ENEC20002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Steel and Masonry Design introduces you to material and section properties of structural steel and masonry, and factors affecting the properties of steel and masonry construction. You will design complex steel and masonry structures subjected to various loads that comply with both ultimate and serviceability limit states as required in Australian Standards. In this unit, you will also use appropriate computer software to analyse and/or design. You will also formulate, plan, manage, and complete projects individually or in teams in an ethical and professional manner considering stakeholders and sustainability requirements. You will also document and communicate engineering information using the appropriate platform at a standard expected for a professional engineer.

Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: *12*

Student Contribution Band: *8*

Fraction of Full-Time Student Load: *0.25*

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2027

- Melbourne
- Online
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.
This information will be available on Monday 17 May 2027

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Academic Progression Policy and Procedure
- Student Refund and Credit Balance Policy and Procedure
- Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Students suggested that the clarity of the unit requirements could be improved to better support their learning.

Recommendation

The unit documentation and assessment instructions should be reviewed and revised to improve clarity, ensuring that learning outcomes, assessment criteria, and submission requirements are explicitly communicated to students in future offerings.

Feedback from UC reflection

Feedback

Students appreciated the opportunity to develop skills in software commonly used in industry.

Recommendation

Opportunities for students to learn and practice industry-relevant software should be continued in future offerings of the unit.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.
This information will be available on Monday 17 May 2027

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
