

Profile information current as at 27/04/2024 07:48 am

All details in this unit profile for ENEG11005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

# **General Information**

# Overview

This unit prepares you to effectively transition into higher education by investigating study support services and developing good study practices. You will explore the fundamental skills and knowledge that characterise contemporary engineering practice: stakeholder engagement, problem-solving, sustainable development, systems engineering, ethical conduct, risk assessment, information literacy, Australian Standards, social innovation and technical communications. Your capacity to work productively in a small team and apply these fundamental aspects is developed and tested through undertaking a complex authentic engineering project. You will also learn to showcase your scholarly achievements by creating a student Portfolio. Successful completion of this unit will equip you with productive study habits; enlighten you with engineering practice insights; award you with practical communication skills in technical reporting, presentations and sketching; and prepare you for the following series of Project-Based Learning units and associated opportunities to interact with the engineering profession. Students enrolled in online mode must attend a compulsory residential school to facilitate peer collaboration and attainment of the unit learning outcomes.

# **Details**

Career Level: Undergraduate

Unit Level: Level 1 Credit Points: 12

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.25

# Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and Procedure (Higher Education Coursework)</u>.

# Offerings For Term 1 - 2019

- Bundaberg
- Cairns
- Gladstone
- Mackay
- Mixed Mode
- Rockhampton

# Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

## Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are: Click here to see your <u>Residential School Timetable</u>.

# Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

# Class and Assessment Overview

## Recommended Student Time Commitment

Each 12-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 25 hours of study per week, making a total of 300 hours for the unit.

# Class Timetable

#### **Regional Campuses**

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### **Metropolitan Campuses**

Adelaide, Brisbane, Melbourne, Perth, Sydney

## **Assessment Overview**

1. Written Assessment

Weighting: 15%

2. Practical Assessment

Weighting: 15%

3. Written Assessment

Weighting: 30% 4. **Portfolio** Weighting: 40%

# Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

# All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the CQUniversity Policy site.

# Previous Student Feedback

# Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

# Feedback from Student evaluation

#### **Feedback**

Some instructional videos could be refreshed to provide new content.

#### Recommendation

Review instructional videos and refresh content where necessary.

#### Feedback from Student evaluation and staff

#### Feedback

Include more set activities in workshops to help students to understand new forms of assessment (portfolio).

#### Recommendation

Create workshop activities so students understand first-hand how to complete sections of their portfolio.

#### Feedback from Student evaluation and staff

#### **Feedback**

Maintain residential school for distance students

#### Recommendation

The compulsory residential school should be maintained but scheduled before the due date of the reflective paper assessment to enable distance students to easily seek assistance with reflective writing.

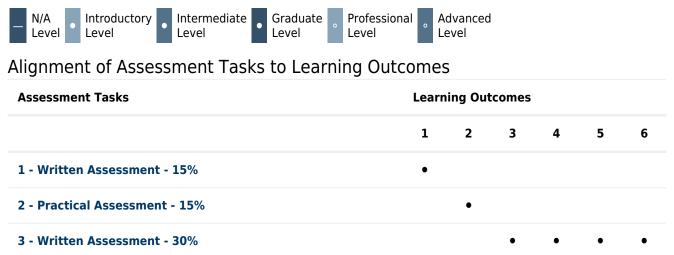

# **Unit Learning Outcomes**

# On successful completion of this unit, you will be able to:

- 1. Reflect on the skills, knowledge and support services that promote effective study at university
- 2. Produce freehand sketches and 2D engineering drawings that follow Australian Standards
- 3. Develop and apply skills, knowledge and values that align with contemporary engineering practice
- 4. Demonstrate professional communication skills in oral and written domains
- 5. Formulate evidence-based opinions by locating, evaluating, and synthesising information from reputable sources
- 6. Work and learn individually and in small teams.

Learning outcomes are linked to Engineers Australia Stage 1 Competencies and also discipline capabilities.

# Alignment of Learning Outcomes, Assessment and Graduate Attributes

# Textbooks and Resources

# **Textbooks**

ENEG11005

#### **Prescribed**

#### **Engineering Your Future - An Australasian Guide**

Edition: 3rd (2016)

Authors: Dowling D, Hadgraft R, Carew A, McCarthy T, Hargreaves D & Baillie C

Wiley

Milton , Qld , Australia ISBN: 978-0-7303-1472-1 Binding: Paperback

#### **Additional Textbook Information**

Paper copies can be purchased at the CQUni Bookshop here: <a href="http://bookshop.cqu.edu.au">http://bookshop.cqu.edu.au</a> (search on the Unit code)

# **IT Resources**

#### You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Computer with Microsoft Office and EndNote installed

# Referencing Style

All submissions for this unit must use the referencing style: <u>Harvard (author-date)</u> For further information, see the Assessment Tasks.

# **Teaching Contacts**

Benjamin Taylor Unit Coordinator

ben.taylor@cqu.edu.au

# Schedule

## Week 1 - Where are you heading? - 11 Mar 2019

Module/Topic Chapter

**Lecture**: What exactly is engineering

Workshops: Model Skyscraper

Challenge Design, Prototype, Build

and Test

Chapter

Textbook: Chapter 1: What is

engineering.

**Events and Submissions/Topic** 

**Challenge activity**: Find more time to read engineering literature. **Assessments**: No set activities but read the Great Guide to Study at

CQUni

# Week 2 - Understanding your study environment - 18 Mar 2019

Module/Topic Chapter

Lecture: Management of learning,

time and teams

**Workshops**: Tools to assist your learning and self-management

Textbook: Chapter 5: Self

Management.

**Events and Submissions/Topic** 

**Challenge activity**: Find more time for reflection and self-review.

**Assessments**: Commence working on Assignment 1 - Reflective Paper on

Studying at University

## Week 3 - Developing good study habbits - 25 Mar 2019

Module/Topic Chapter **Events and Submissions/Topic** Lecture: Unpacking unit learning Challenge activity: Become a outcomes lifelong learner Textbook: Chapter 6: Collaborating Workshops: Tools to assist your **Assessments**: Continue working on With Others learning and self-management Assignment 1 - Reflective Paper on continues Studying at University Week 4 - Sketching your ideas - 01 Apr 2019 Module/Topic Chapter **Events and Submissions/Topic RESIDENTIAL SCHOOL FOR ALL MIX MODE STUDENTS** Challenge activity: Develop your **RESIDENTIAL SCHOOL FOR ALL** sketching confidence **MIX MODE STUDENTS RESIDENTIAL SCHOOL FOR ALL** Assessments: Commence working on Lecture: Sketching and visualisation **MIX MODE STUDENTS** Assignment 2 - Sketching and Drawing for engineers Moodle: Video resources on for Engineers Workshops: Developing sketching sketching for engineers skills and confidence Reflective Paper on Studying at University Due: Week 4 Friday (5 Apr 2019) 10:00 pm AEST Week 5 - Visualising Engineering Objects - 08 Apr 2019 Module/Topic Chapter **Events and Submissions/Topic** Challenge activity: Analyse objects Lecture: Introduction to the Team and visualise drawings Project and Individual Portfolio Moodle: Online resources on **Workshops**: Developing visualisation Principles of Orthographic Projection skills and confidence for Engineers

Assessments: Continue working on

Assignment 2 - Sketching and Drawing

Vacation Week - 15 Apr 2019

Module/Topic

Chapter

**Events and Submissions/Topic** 

**BREAK WEEK** 

Use this time to plan your team project and Portfolio

**BREAK WEEK** 

Sketching and Visualisation for **Engineers** Due: Vacation Week Friday (19 Apr 2019) 10:00 pm AEST

Week 6 - Commencing the Team Project - 22 Apr 2019

Module/Topic

Lecture: Information literacy and

Australian Standards

Workshops: Team allocation and negotiation; Project background and research; and Australian Standards

Chapter

Textbook: Chapter 9: Understanding

the Problem

**Events and Submissions/Topic** 

Challenge activity: Seek engineering

literature

**BREAK WEEK** 

Assessments: Commence working simultaneously on Assignment 3 -Team Project, and Assignment 4 -

Individual Portfolio

Week 7 - The Engineering Method for Decision-Making - 29 Apr 2019

Module/Topic

Chapter

**Events and Submissions/Topic** 

Lecture: Problem solving and

stakeholders

Workshops: Concrete mix design; options for locating your community centre: and water balance simulations Textbook: Chapter 2: The **Engineering Method** 

Challenge activity: Value evidence-

based decision making

**Assessments**: Continue working simultaneously on Assignment 3 -Team Project, and Assignment 4 -

Individual Portfolio

Week 8 - Engineering Values - 06 May 2019

Module/Topic

Chapter

**Events and Submissions/Topic** 

Lecture: Sustainability, ethics and

social responsibility

Workshops: Material selection; water allocation and control; and

implications for social innovation

Textbook: Chapter 3: Sustainable Engineering & Chapter 4: Professional

Responsibility and Ethics

Challenge activity: Promote

sustainability

**Assessments**: Continue working simultaneously on Assignment 3 -Team Project, and Assignment 4 -

Individual Portfolio

Week 9 - Managing Risks - 13 May 2019

Module/Topic Chapter **Events and Submissions/Topic** 

Lecture: Risk assessment and Reflection on ENEG11005 Workshops: Portfolio progress

review; project risk assessment; and

Team Report 1st Draft

Textbook: Revise Section Risk Management pp. 83-86

Challenge activity: Prioritise risk

management

**Assessments**: Continue working simultaneously on Assignment 3 -Team Project, and Assignment 4 -

Individual Portfolio

Week 10 - Effective Communication - 20 May 2019

Module/Topic Chapter **Events and Submissions/Topic** 

**Lecture**: Effective communications through reports and presentations **Workshops**: Portfolio progress

review; Team Report 2nd Draft; and

Finalising your report

Textbook: Chapter 7: Understanding

Communication

**Team Technical Project Report** Due: Week 10 Friday (24 May 2019)

Challenge activity: Communicate

10:00 pm AEST

with pride

Week 11 - Your Personal Development - 27 May 2019

Module/Topic Chapter **Events and Submissions/Topic** 

Communicating with technical presentations

**Lecture**: Portfolio walkthrough

Workshops: Team presentation draft,

practice and deliver

Challenge activity: Review your

personal development

Assessments: Team Presentation

Week 12 - Showcase Your Learning Achievements - 03 Jun 2019

**Events and Submissions/Topic** Module/Topic Chapter

**Lecture**: Wrap up and what next Assessments: Finalise your Individual

Workshops: Portfolio Compilation Portfolio

Review/Exam Week - 10 Jun 2019

Module/Topic Chapter **Events and Submissions/Topic** 

> **Individual Learning Portfolio** Due: Review/Exam Week Monday (10 June

2019) 10:00 pm AEST

Exam Week - 17 Jun 2019

Chapter Module/Topic **Events and Submissions/Topic** 

## Assessment Tasks

# 1 Reflective Paper on Studying at University

#### **Assessment Type**

Written Assessment

#### **Task Description**

Prepare a typed Reflective Paper by studying the topics and resources provided for this assignment on Moodle. You will need to become familiar with the Reflective Writing Guide to ensure your paper articulates reflective thoughts rather than just restating information from the resources provided. There is no strict word limit, either minimum or maximum, but you should be able to prepare approximately one page for each topic. Prepare your paper by writing succinctly.

#### **Assessment Due Date**

Week 4 Friday (5 Apr 2019) 10:00 pm AEST

#### **Return Date to Students**

Week 6 Friday (26 Apr 2019)

## Weighting

15%

#### Minimum mark or grade

25%

#### **Assessment Criteria**

A Marking Rubric is provided on Moodle that includes indicators of attainment at the 'Sound', 'Good' and 'Excellent' levels for each assignment topic.

#### **Referencing Style**

• Harvard (author-date)

#### **Submission**

Online

#### **Submission Instructions**

Prepare your paper following the instructions provided on Moodle. Upload a single PDF.

#### **Learning Outcomes Assessed**

• Reflect on the skills, knowledge and support services that promote effective study at university

#### **Graduate Attributes**

- Communication
- Information Literacy

# 2 Sketching and Visualisation for Engineers

#### **Assessment Type**

**Practical Assessment** 

#### **Task Description**

The set sketching and visualisation exercises are on Moodle. These activities will build confidence and skills to express engineering thoughts and designs visually. Sketching activities develop free-hand pencil drawing techniques. Visualisation activities involve developing isometric views and orthographic projections of solid objects which follows specifications in AS1100 – Australian Standards for Technical Drawing. This standard is accessible through the CQU library website.

#### **Assessment Due Date**

Vacation Week Friday (19 Apr 2019) 10:00 pm AEST

## **Return Date to Students**

Week 7 Friday (3 May 2019)

#### Weighting

15%

## Minimum mark or grade

25%

#### **Assessment Criteria**

A marking rubric is provided on Moodle which outlines expectations for each activity. Sketches and drawings should be neat, with one activity per page and of a reasonable scale. The correct line types and shading should be used. Marks will be deducted if sketches and drawings do not meet these criteria.

# **Referencing Style**

• Harvard (author-date)

#### **Submission**

Online

# **Submission Instructions**

Upload a single PDF that combines your solutions to all activities.

#### **Learning Outcomes Assessed**

· Produce freehand sketches and 2D engineering drawings that follow Australian Standards

## **Graduate Attributes**

- Communication
- Information Technology Competence

# 3 Team Technical Project Report

#### **Assessment Type**

Written Assessment

#### **Task Description**

In your project team, prepare a Technical Report using the Microsoft Word Report Template provided on Moodle. Resources for this assignment are provided on Moodle, in lectures and workshops. You will need to seek feedback from your lecturer at the draft stage of your report. There is no strict word limit, either minimum or maximum. Your team should aim to prepare a report which adequately explains the decision-making processes, designs and results of your project. Write succinctly and avoid padding your report with discussions that are unnecessary.

#### **Assessment Due Date**

Week 10 Friday (24 May 2019) 10:00 pm AEST

#### **Return Date to Students**

Week 12 Friday (7 June 2019)

## Weighting

30%

#### Minimum mark or grade

25%

#### **Assessment Criteria**

A Marking Rubric is provided on Moodle that includes indicators of attainment at the 'Sound', 'Good' and 'Excellent' levels for each element of the report.

## **Referencing Style**

• Harvard (author-date)

#### **Submission**

Online Group

#### **Submission Instructions**

Only one team member submits on behalf of the team. They must upload a single PDF of the entire report

#### **Learning Outcomes Assessed**

- · Develop and apply skills, knowledge and values that align with contemporary engineering practice
- Demonstrate professional communication skills in oral and written domains
- Formulate evidence-based opinions by locating, evaluating, and synthesising information from reputable sources
- Work and learn individually and in small teams.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

# 4 Individual Learning Portfolio

#### **Assessment Type**

Portfolio

#### **Task Description**

Individually prepare an electronic Portfolio as evidence of your achievements towards the unit learning outcomes while simultaneously working on your team project and report. The Portfolio must be prepared using the Microsoft Word template provided on Moodle, and it shall contain only your work. The Portfolio must contain the following compulsory sections.

**Grade Nomination**: A self-assessment of your level of achievement ('Sound', 'Good' or 'Excellent') that you believe should be awarded for each task listed in the Portfolio marking rubric on Moodle. For each task, you will need to substantiate your claim by including the active document links and page numbers to entries in your portfolio that contain evidence of meeting the associated indicators of attainment from the marking rubric. Evidence of your learning achievements will come from subsequent sections of your Portfolio including entries in your Workbook, and Reflective Journal. An example of a Grade Nomination is provided on Moodle.

**Workbook**: Can be typed, handwritten (then scanned) or a combination of both but must be neat, chronological and legible. The workbook contains all your work for the team project. It should contain separate entries with headings and the date, such as: 'April 20 – Project Risk Assessment'. These entries will show when you worked on each element of the project and how your ideas and capabilities have developed through the unit. You should not go back and edit old entries as this may prohibit demonstrating skills development. The workbook will principally contain your posts to Moodle forums that will help your team to collaborate on your project tasks. You cannot complete these tasks retrospectively so you must be prepared to add entries to your workbook each week while working on the team project. Entries should demonstrate a variety of technical skills like researching, brainstorming, creating mind maps, flowcharts, methodologies, schedules, obtaining experimental data, undertaking data analysis, producing results, figures, charts, conclusions, or any other work done for your team project. It is good practice to add entries to your Workbook first and then post a copy to the relevant team forum to ensure you retain the original work.

**Reflective Journal**: As with your workbook, it can be typed, handwritten (then scanned) or a combination of both but must be neat, chronological and legible. The Reflective Journal contains your thoughts about how you and your team are progressing with the project and what you have learnt and experienced either directly by doing the work or indirectly through observing others. Again, like the Workbook, It should contain entries each week while working on the project. Entries must have headings with the date and a title, such as: 'April 20 – Why I think Risk Assessment is important for engineers'. Reflective entries can demonstrate a variety of achievements like understanding how and when you learnt something, identifying effective ways to communicate and work with your peers, and comprehending the relevance of what you have learnt and experienced towards your future engineering career. You should not go back and edit old entries as this may prohibit demonstrating your development. Thus, the Reflective Journal cannot be completed retrospectively. Refer to the Reflective Writing Guide on Moodle.

You should expect that your lecturer will ask to see your Workbook and Reflective Journal at any time during the team project to ensure that you are progressing suitably towards achieving the associated unit learning outcomes.

#### **Assessment Due Date**

Review/Exam Week Monday (10 June 2019) 10:00 pm AEST

#### **Return Date to Students**

Feedback will be provided before finalisation of grades

#### Weighting

40%

#### Minimum mark or grade

50%

#### **Assessment Criteria**

A Marking Rubric is provided on Moodle that includes indicators of attainment at the 'Sound', 'Good' and 'Excellent' levels for all Portfolio tasks.

# **Referencing Style**

• Harvard (author-date)

#### **Submission**

Online

# **Submission Instructions**

Upload a single PDF which includes active bookmarks in the Grade Nomination to all pages containing evidence of meeting the marking criteria.

#### **Learning Outcomes Assessed**

- · Develop and apply skills, knowledge and values that align with contemporary engineering practice
- Demonstrate professional communication skills in oral and written domains
- Formulate evidence-based opinions by locating, evaluating, and synthesising information from reputable sources
- Work and learn individually and in small teams.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

# **Academic Integrity Statement**

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

## What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

#### What can you do to act with integrity?

#### **Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### **Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
