

ENEG14003 Engineering Honours Project

Planning

Term 2 - 2018

Profile information current as at 29/04/2024 04:05 pm

All details in this unit profile for ENEG14003 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

As a student in the final year of your Bachelor of Engineering (Honours) course, you will work independently to plan a project that allows you to demonstrate technical and professional capabilities (Engineers Australia's Stage One Competencies) expected of graduating professional engineers. You will conduct research, demonstrate critical thinking and document sound analysis, decision-making and judgement to support your project. You will work and learn autonomously, prepare and adhere to work and reporting schedules, communicate progress, and prepare formal and informal project documents. You will define and scope your project, apply technical knowledge, assess safety and risks and prepare a proposal and plan for implementing the project in the following implementation unit. Note: Before enrolment can be accepted, you must confirm with the unit coordinator that you have identified a suitable project, obtained an academic adviser and have completed all relevant units in prior years of the course.

Details

Career Level: *Undergraduate*

Unit Level: *Level 4*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

COND: Completion of all prior units in the nominal course structure - to be checked by Head of Course or Unit Coordinator during facilitation of the enrolment process.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2018

- Bundaberg
- Distance
- Gladstone
- Mackay
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Written Assessment**

Weighting: 10%

2. **Written Assessment**

Weighting: 20%

3. **Written Assessment**

Weighting: 20%

4. **Written Assessment**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit coordinator reflection

Feedback

Some students and projects are not as prepared as ideally expected by the end of this unit.

Recommendation

Alternative markers for the project methodology section will be considered so the students get broader feedback.

Feedback from Unit coordinator reflection

Feedback

Some students are not fully aware of GECon.

Recommendation

Planning students will be invited to GECon and will be asked to provide feedback on student presentations.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply to a substantial degree the Engineers Australia's Stage One Competencies for Professional Engineers to the planning phases of an engineering project
2. Prepare a project scope with your advisers that includes a project definition, identification of project stakeholders and expected milestones and deliverables.
3. Research critical areas of your project by evaluating and extracting information from key reputable sources and relevant authorities.
4. Identify the tasks required for the implementation phases, including application of appropriate technical capability developed in preceding units of study, and integration with new capabilities necessary to form a comprehensive project plan.
5. Prepare a project proposal that justifies the continuation of the project into the implementation phases

By undertaking this unit and the follow-on Implementation unit students will demonstrate Engineers Australia's Stage One Competencies for Professional Engineers to a substantial degree.

Textbooks and Resources

Textbooks

ENEG14003

Supplementary

The Thinker's Guide to Engineering Reasoning

Edition: 2nd (2013)

Authors: Richard Paul, Dr. Robert Niewoehner and Linda Elder

Foundation for Critical Thinking

Tomales , CA , USA

ISBN: 0-944583-33-4

Binding: Paperback

Additional Textbook Information

[Also available as a Kindle Edition. Check Amazon](#)

[View textbooks at the CQUniversity Bookshop](#)

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Presentation software such as MS Powerpoint
- Project management software such as MS Project
- Software specific to project
- Webcam and headset for on-line sessions.
- Word processing software such as MS Word

Referencing Style

All submissions for this unit must use the referencing styles below:

- [Harvard \(author-date\)](#)
- [Turabian](#)

For further information, see the Assessment Tasks.

Schedule

Week 1 - 09 Jul 2018

Module/Topic

Commence researching your project.
Schedule regular meetings with your academic (and industry) advisor(s).

Chapter

Events and Submissions/Topic

Share progress with advisor(s) using progress report template available in Moodle

Week 2 - 16 Jul 2018

Module/Topic

Chapter

Events and Submissions/Topic

Start preparing your project scope. There is a scope template and guidance on scopes in Moodle.

Share progress with advisor(s) using progress report template available in Moodle

Week 3 - 23 Jul 2018

Module/Topic

Chapter

Events and Submissions/Topic

Invite your academic advisor to formally provide advice by submitting your project scope.

Share progress with advisor(s) using progress report template available in Moodle

Project Scope & Annotated Bibliography Due: Week 3 Thursday (26 July 2018) 9:00 am AEST

Week 4 - 30 Jul 2018

Module/Topic

Chapter

Events and Submissions/Topic

Your literature review is the next assessment item. There are some useful resources in Moodle to guide your literature review.

Share progress with advisor(s) using progress report template available in Moodle

Week 5 - 06 Aug 2018

Module/Topic

Chapter

Events and Submissions/Topic

Continue developing your literature review and proposed project methodology.

Share progress with advisor(s) using progress report template available in Moodle

Vacation Week - 13 Aug 2018

Module/Topic

Chapter

Events and Submissions/Topic

Check Moodle for guidance on your literature review.

Share progress with advisor(s) using progress report template available in Moodle

Week 6 - 20 Aug 2018

Module/Topic

Chapter

Events and Submissions/Topic

Invite your academic advisor to formally provide advice by submitting your literature review.

Share progress with advisor(s) using progress report template available in Moodle

Literature Review Due: Week 6 Monday (20 Aug 2018) 9:00 am AEST

Week 7 - 27 Aug 2018

Module/Topic

Chapter

Events and Submissions/Topic

Continue developing your proposed project methodology.

Share progress with advisor(s) using progress report template available in Moodle

Week 8 - 03 Sep 2018

Module/Topic

Chapter

Events and Submissions/Topic

Check Moodle for guidance on your proposed project methodology.

Share progress with advisor(s) using progress report template available in Moodle

Week 9 - 10 Sep 2018

Module/Topic

Chapter

Events and Submissions/Topic

Invite your academic advisor to formally provide advice by submitting your proposed project methodology.

Share progress with advisor(s) using progress report template available in Moodle

Proposed Project Methodology Due: Week 9 Monday (10 Sept 2018) 9:00 am AEST

Week 10 - 17 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
Continue developing your project proposal.		Share progress with advisor(s) using progress report template available in Moodle

Week 11 - 24 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
Check Moodle for guidance on your proposal. Ensure GECon is in your diary for next week. Think about what criteria you will use to review the presentations.		Share progress with advisor(s) using progress report template available in Moodle

Week 12 - 01 Oct 2018

Module/Topic	Chapter	Events and Submissions/Topic
Check Moodle for guidance on your proposal and presentation reviews.		Attend GECon and professionally review five final year project presentations. Share progress with advisor(s) using progress report template available in Moodle

Review/Exam Week - 08 Oct 2018

Module/Topic	Chapter	Events and Submissions/Topic
Submit your proposal for official review.		Portfolio Due: Review/Exam Week Monday (8 Oct 2018) 9:00 am AEST

Exam Week - 15 Oct 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Term Specific Information

If you intend to complete your project in term one 2019 then please be aware that your final presentation is currently planned for Wednesday 29th May 2019. The day will be confirmed in the Unit Profile for the Implementation unit next year but you could put this tentative date in your diary now.

Assessment Tasks

1 Project Scope & Annotated Bibliography

Assessment Type

Written Assessment

Task Description

After meeting(s) with your academic advisor and other project stakeholders where appropriate, prepare a project scope which includes the following sections:

1. Project aim, objectives and justification
2. Stakeholder identification and stakeholder communication plan
3. Anticipated resources required
4. Expected project milestones and deliverables
5. Annotated bibliography (at least five relevant reliable references required)

If you need further guidance then check in Moodle and /or ask questions in the Q&A forum.

Assessment Due Date

Week 3 Thursday (26 July 2018) 9:00 am AEST

Return Date to Students

Week 5 Thursday (9 Aug 2018)

Weighting

10%

Minimum mark or grade

25%

Assessment Criteria

Accuracy and clarity of written document.

Appropriateness of project scope.

Reliability of references used for annotated bibliography.

Performance guidelines for the assessment criteria will be available in Moodle.

Referencing Style

- [Harvard \(author-date\)](#)
- [Turabian](#)

Submission

Online

Learning Outcomes Assessed

- Apply to a substantial degree the Engineers Australia's Stage One Competencies for Professional Engineers to the planning phases of an engineering project
- Prepare a project scope with your advisers that includes a project definition, identification of project stakeholders and expected milestones and deliverables.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

2 Literature Review

Assessment Type

Written Assessment

Task Description

After meeting(s) with your academic advisor and other project stakeholders where appropriate, prepare a literature review suitable for your project. Check Moodle for further guidance, especially the CQU Library guide for Literature Reviews. For further guidance ask questions in the Q&A forum.

Assessment Due Date

Week 6 Monday (20 Aug 2018) 9:00 am AEST

Return Date to Students

Week 8 Monday (3 Sept 2018)

Weighting

20%

Minimum mark or grade

25%

Assessment Criteria

Accuracy and clarity of written document.

Appropriateness of literature reviewed.

Critical assessment of the accuracy and reliability of information.

Performance guidelines for the assessment criteria will be available in Moodle.

Referencing Style

- [Harvard \(author-date\)](#)
- [Turabian](#)

Submission

Online

Learning Outcomes Assessed

- Apply to a substantial degree the Engineers Australia's Stage One Competencies for Professional Engineers to the planning phases of an engineering project
- Research critical areas of your project by evaluating and extracting information from key reputable sources and relevant authorities.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

3 Proposed Project Methodology

Assessment Type

Written Assessment

Task Description

After meeting(s) with your academic advisor and other project stakeholders where appropriate, prepare a project methodology that will help you achieve the deliverables of your project. Check Moodle for further resources and guidance. Ask questions in the Q&A forum if necessary.

Assessment Due Date

Week 9 Monday (10 Sept 2018) 9:00 am AEST

Return Date to Students

Week 11 Monday (24 Sept 2018)

Weighting

20%

Minimum mark or grade

25%

Assessment Criteria

Accuracy and clarity of written document.

Achieve-ability of project methodology.

Performance guidelines for the assessment criteria will be available in Moodle.

Referencing Style

- [Harvard \(author-date\)](#)

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work

- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

4 Portfolio

Assessment Type

Written Assessment

Task Description

Prepare a portfolio which includes the following components, submitted as one PDF document:

- Project Proposal which justifies that your project may continue into the Implementation phases.
- Professional review of at least five presentations from GECon on Wednesday 3rd October, 1-5 p.m. (QLD time).

Your Project Proposal will be structured as follows:

- Title Page
- Summary
- Acknowledgments
- Table of Contents
- List of Figures
- List of Tables
- Glossary/Nomenclature
- Introduction to the Project and Proposal
- Literature Review
- Proposed Project Methodology
- Proposed Implementation Plan
- Risk Assessment
- Appendices as appropriate (please note that any appendices will not be graded)

Further guidance and resources are in Moodle.

Failure to include either portfolio component will result in a non-passing grade.

Assessment Due Date

Review/Exam Week Monday (8 Oct 2018) 9:00 am AEST

Return Date to Students

Once marking and moderation have been completed

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

Accuracy and clarity of written document.

Appropriateness of project proposal.

Achieve-ability of project methodology.

Likelihood of project success.

Appropriateness of professional reviews.

Critical assessment of the accuracy and reliability of information.

Performance standards for the assessment criteria will be available in Moodle.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
