

Profile information current as at 10/05/2024 10:29 pm

All details in this unit profile for ENER20001 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit , you will engage in a project that offers opportunities for you to explore issues in the design, modelling and analysis of railway vehicle/ track systems. Depending on your previous knowledge and experience, you may choose to investigate traction and braking, vehicle dynamics or structural engineering aspects. You will examine real world problems and apply state-of-the-art simulation and analysis tools. In the context of a train system (large mining heavy haul, mixed freight or passenger rail) you may solve problems such as control, electrical machines, contact mechanics, multi-body dynamics, stress and strain and vibrations.

Details

Career Level: *Postgraduate* Unit Level: *Level 8* Credit Points: *12* Student Contribution Band: *8* Fraction of Full-Time Student Load: *0.25*

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and</u> <u>Procedure (Higher Education Coursework)</u>.

Offerings For Term 2 - 2017

- Distance
- Melbourne
- Perth
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are: Click here to see your <u>Residential School Timetable</u>.

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Recommended Student Time Commitment

Each 12-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 25 hours of study per week, making a total of 300 hours for the unit.

Class Timetable

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

Metropolitan Campuses

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Portfolio** Weighting: 100%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

- 1. Apply discipline knowledge to a complex rail engineering subsystem
- 2. Conduct advanced analysis and sensitivity analysis of design parameter(s) in a design/ optimisation process
- 3. Specify and justify effective design that meets stakeholder requirements
- 4. Identify and use appropriate techniques to review a design
- 5. Determine state-of-the-art rail engineering subsystems
- 6. Reflect on the contribution of this project to your professional development

The learning outcomes are linked to Engineers Australia Stage 1 Competencies.

Schedule

Week 1 - 10 Jul 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Unpowered Rail Vehicle Design	Chapter 2	
Week 2 - 17 Jul 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Design of Locomotives	Chapter 3	Submit brief report that includes the list of learning requirements and plan for completion of the project
Week 3 - 24 Jul 2017		

Module/Topic	Chapter	Events and Submissions/Topic
General Modelling Techniques	Chapter 4	
Week 4 - 31 Jul 2017		
Module/Topic	Chapter	Events and Submissions/Topic
General Modelling Techniques	Chapter 4	Submit brief report on project progress and outstanding issues
Week 5 - 07 Aug 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Multibody Dynamics	Chapter 5	
Vacation Week - 14 Aug 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Week 6 - 21 Aug 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Multibody Dynamics	Chapter 5	Submit brief report on project progress and outstanding issues
Week 7 - 28 Aug 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Longitudinal Train Dynamics	Chapter 6	
Week 8 - 04 Sep 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Rail Vehicle-Track Interaction Dynamics	Chapter 7	Submit brief report on project progress and outstanding issues
Week 9 - 11 Sep 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Rail Vehicle-Track Interaction Dynamics	Chapter 7	
Week 10 - 18 Sep 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Rail Vehicle-Track Interaction Dynamics	Chapter 7	Submit brief report on project progress and outstanding issues
Week 11 - 25 Sep 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Rail Vehicle-Track Interaction Dynamics	Chapter 7	
Week 12 - 02 Oct 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Rail Vehicle-Track Interaction Dynamics	Chapter 7	Complete project and submit report by end of the week
Review/Exam Week - 09 Oct 2017		
Module/Topic	Chapter	Events and Submissions/Topic
Course review		Portfolio Due: Review/Exam Week Friday (13 Oct 2017) 5:00 pm AEST
Exam Week - 16 Oct 2017		
Module/Topic	Chapter	Events and Submissions/Topic

1 Portfolio

Assessment Type

Portfolio

Task Description

The Portfolio consists of learning activities, all models and reports (five brief and one final reports) required for the finalisation of a project on the design, behaviour and analysis of rail vehicle.

Assessment Due Date

Review/Exam Week Friday (13 Oct 2017) 5:00 pm AEST

Return Date to Students

Feedback will be posted on Moodle and the unit grade will be provided on CQU Central.

Weighting

100%

Assessment Criteria

Formal assessment is by submission of an individual portfolio, which contains all of the student's work for the semester. Compulsory pieces of work to be included in the learning portfolio are a record of all learning activities, all models, reports including the description of models and simulation outcomes, and the final project submission.

Grade	Skill elements demonstrated in the portfolio
High Distinction	Achieved skill attributes for the grade of Distinction Demonstrated maturity and judgement in assigned tasks Extended applications beyond unit content Demonstrated outstanding professional ability and attitude
Distinction	Achieved skill attributes for the grade of Credit Demonstrated consistent ability to reflect on own practice and seek improvement Ability to synthesise solution to given problem Demonstrate excellent professional ability and attitude
Credit	Achieved skill attributes for the grade of Pass Ability to discuss most core content accurately Ability to apply content Demonstrate creditable professional ability and attitude
Pass	Have completed at least 80% of required learning activities and can discuss core content meaningfully Demonstrate acceptable professional ability and attitude in ALL assigned activities
Fail	Fundamental misunderstanding of concept Lack of effort and/or involvement Cannot demonstrate acceptable professional ability and attitude

Referencing Style

Learning Outcomes Assessed

- Apply discipline knowledge to a complex rail engineering subsystem
- Conduct advanced analysis and sensitivity analysis of design parameter(s) in a design/ optimisation process
- Specify and justify effective design that meets stakeholder requirements
- Identify and use appropriate techniques to review a design
- Determine state-of-the-art rail engineering subsystems
- Reflect on the contribution of this project to your professional development

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management
- Ethical and Professional Responsibility
- Leadership

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Seek Help If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
