In Progress

Please note that this Unit Profile is still in progress. The content below is subject to change.

Profile information current as at 11/05/2024 11:06 pm

All details in this unit profile for ENEX13003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will introduce you to the basics of mechatronics and machine design, including the design process, engineering mechanics and materials, failure prevention, and characteristics of the principal elements. You will develop an understanding of standard drawings in the communication and definition of parts and assemblies in accordance with Australian Standards. In this unit, you will also learn and apply Autodesk Inventor software or equivalent for drafting and design activities.

Details

Career Level: Undergraduate Unit Level: Level 3 Credit Points: 6 Student Contribution Band: 8 Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisites: ENEG11005: Fundamentals of Professional Engineering, ENEG11008: Materials for Engineers, and ENEM12009: Structural Mechanics

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and</u> <u>Procedure (Higher Education Coursework)</u>.

Offerings For Term 2 - 2024

- Mackay
- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Information for Class and Assessment Overview has not been released yet. This information will be available on Monday 13 May 2024

CQUniversity Policies

All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit and Teaching Evaluation & personal communications

Feedback

Students praised that the unit contents were very practical and closely related to their potential job requirements.

Recommendation

The unit coordinator should further endeavour to identify practical skills and knowledge required from the industry and include these identified aspects in the unit for continued improvements.

Feedback from Student Unit and Teaching Evaluation

Feedback

Students liked the resourceful content and hands-on tutorial activities for nourishing skills in 3D modeling and simulations.

Recommendation

More case studies will be introduced in the lectures and more hands-on step-by-step tutorial activities will be provided to enhance students' learning experience.

Feedback from Student Unit and Teaching Evaluation & personal communications

Feedback

Students who did not take ENEM12009 felt disadvantaged.

Recommendation

ENEM12009 should be added as a prerequisite unit.

Feedback from Student Unit and Teaching Evaluation & personal communications

Feedback

Some of the students pointed out that some of the assessment tasks and expectations were not clear.

Recommendation

Assessment items should be reviewed and revised to clarify tasks and expectations. Furthermore, each assessment item should have a marking rubric.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.

This information will be available on Monday 13 May 2024

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.

This information will be available on Monday 13 May 2024

Textbooks and Resources

Information for Textbooks and Resources has not been released yet. This information will be available on Monday 17 June 2024

Academic Integrity Statement

Information for Academic Integrity Statement has not been released yet. This unit profile has not yet been finalised.
