Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have your say

Feedback
The marking rubric needs to be more detailed… there's a gap between the rubric and what the lecturer actually expects.

Recommendation
The teaching team will rework the marking rubrics to clearly spell out what's expected for each grade level. We'll also share the rubrics with sample assessment responses in future terms to give students a better idea of what's required.

Feedback from Have your say

Feedback
Class times are a bit awkward for WA students who work in mining and do shift work.

Recommendation
Alongside recorded sessions, the teaching team will look into polling students during Orientation to find alternative times for live Zoom classes, especially to accommodate shift workers in different time zones.

Feedback from Have your say

Feedback
Please include more reading lists and industry expert lectures to align theory with real-world practice.

Recommendation
A curated list of extra readings will be added to Moodle in a new 'Supplementary Resources' section. We'll also aim to schedule at least one live guest lecture in future terms.
