ENTG13002 *Engineering Technology Project Planning*

Term 1 - 2027

Profile information current as at 07/09/2026 09:35 pm

All details in this unit profile for ENTG13002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

As a student in the final year of your Bachelor of Engineering Technology course, you will work independently to plan a project that allows you to demonstrate technical and professional capabilities (Engineers Australia's Stage One Competencies) expected of graduating engineering technologists. You will conduct research, demonstrate critical thinking, and document sound analysis, decision-making, and judgment to support your project. You will work and learn autonomously, prepare and adhere to work and reporting schedules, communicate progress and prepare formal and informal project documents. You will define and scope your project, apply technical knowledge, assess safety and risks, and prepare a proposal and plan for implementing the project in the following implementation unit. It is highly recommended that before enrolling in this unit, you identify a suitable academic adviser and a project and have successfully completed all nominal prior units in the course.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE and Self-Reflection

Feedback

Students expect unit requirements to be communicated clearly.

Recommendation

The Unit Coordinator should conduct structured weekly sessions to ensure clear communication of unit requirements.

They should also publish a simple one-page project expectation guide that includes expectations on meetings, academic standards, use of feedback, time allocation, independent work, etc.

Feedback from SUTE

Feedback

Students found the feedback limited or not useful.

Recommendation

Students should be encouraged to seek feedback during their weekly meetings.
