

# EN VH12003 Environmental Toxicology

## Term 2 - 2021

Profile information current as at 27/04/2024 02:53 pm

All details in this unit profile for EN VH12003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

Environmental toxicology is the study of the nature, properties, effects, and detection of toxic substances in diverse environments and those exposed. In this unit, you will study an introduction to basic toxicology from a public health perspective, focusing on developing an understanding of the principles of the discipline and the concepts relating to environmental exposures. Topics that will be covered include routes of exposure, the concept of dose, dose-response relationships, absorption and distribution of toxicants, biotransformation and elimination, target organ toxicity, carcinogenesis, mutagenesis, teratogenesis and risk assessment. You will examine toxicants of interest within community and occupational environments as well as how they are tested and regulated. You will practise your professional skills by reviewing case studies and special topics of interest.

### Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

### Pre-requisites or Co-requisites

Prerequisites: 48 credit points AND SCIE11022 OR EN VH11001 OR CHEM11041 OR CHEM11042 OR CHEM11044 Students who have completed other Chemistry or Biochemistry units should contact the Unit Coordinator.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 2 - 2021

- Online

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

# Class and Assessment Overview

## Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

## Class Timetable

### **Regional Campuses**

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

### **Metropolitan Campuses**

Adelaide, Brisbane, Melbourne, Perth, Sydney

## Assessment Overview

### **1. Online Quiz(zes)**

Weighting: 20%

### **2. Written Assessment**

Weighting: 40%

### **3. Take Home Exam**

Weighting: 40%

## Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

# CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Unit evaluation

##### Feedback

Small errors on Moodle site

##### Recommendation

Check site thoroughly and encourage students to report errors.

## Unit Learning Outcomes

### On successful completion of this unit, you will be able to:

1. Define fundamental toxicological concepts
2. Identify and classify a range of common toxicants and their environmental sources
3. Explain the dose-response relationship and its implications and applications
4. Describe fundamental processes and endpoints relating to toxicants within the human body
5. Apply the principles of risk assessment and risk management to toxicological situations
6. Discuss major issues in environmental toxicology relating to exposures from natural and anthropogenic sources
7. Critically consider the ethical and regulatory implications of toxicological research, associated uncertainties and risk communication.

#### Bachelor of Public Health (Environmental Health)

Foundation and applied environmental toxicology (LOs 1, 2, 3, 4 & 6) are identified as underpinning skills and knowledge in Part 2 of the Environmental Health Australia Skills & Knowledge Matrix, used as the basis for accreditation of the Bachelor of Public Health (Environmental Health) course. Methods of risk assessment and management (including as applied to toxicological issues) (LO 5) and the use of evidence in regulatory practice (LO7) are also identified as underpinning knowledge. Additionally, toxicology is an integral part of many of the activity-specific skills and knowledge identified in Part 3 of the Matrix.

#### Bachelor of Occupational Health & Safety

An understanding of toxicology is also important to support studies in Occupational Hygiene, considered a core knowledge area in the Safety Institute of Australia's Body of Knowledge, proposed to be used for accreditation of OHS courses within Australia.

## Alignment of Learning Outcomes, Assessment and Graduate Attributes

### Alignment of Assessment Tasks to Learning Outcomes

Assessment Tasks	Learning Outcomes						
	1	2	3	4	5	6	7
1 - Online Quiz(zes) - 20%	•	•	•				
2 - Written Assessment - 40%				•	•	•	
3 - Take Home Exam - 40%	•	•	•	•			

## Alignment of Graduate Attributes to Learning Outcomes

Graduate Attributes	Learning Outcomes						
	1	2	3	4	5	6	7
<b>1 - Communication</b>	•	•	•	•		•	•
<b>2 - Problem Solving</b>		•	•	•	•		•
<b>3 - Critical Thinking</b>	•	•	•	•	•	•	•
<b>4 - Information Literacy</b>		•	•	•	•	•	•
<b>5 - Team Work</b>							
<b>6 - Information Technology Competence</b>							
<b>7 - Cross Cultural Competence</b>					•	•	•
<b>8 - Ethical practice</b>					•	•	•
<b>9 - Social Innovation</b>							
<b>10 - Aboriginal and Torres Strait Islander Cultures</b>							

## Alignment of Assessment Tasks to Graduate Attributes

Assessment Tasks	Graduate Attributes									
	1	2	3	4	5	6	7	8	9	10
<b>1 - Online Quiz(zes) - 20%</b>	•		•	•

## Textbooks and Resources

### Textbooks

EN VH12003

#### Prescribed

##### **A Textbook of Modern Toxicology**

Edition: 4th (2011)

Authors: Hodgson, Ernest

Wiley

Hoboken , New Jersey , USA

ISBN: 978-1-118-21129-8

Binding: Hardcover

#### **Additional Textbook Information**

The e-book of this title is available from the publisher at

<https://www.wiley.com/en-au/A+Textbook+of+Modern+Toxicology%2C+4th+Edition-p-9781118211298>.

If you prefer to study with a paper text, you can purchase one at the CQUni Bookshop here:

<http://bookshop.cqu.edu.au> (search on the Unit code).

[\*\*View textbooks at the CQUniversity Bookshop\*\*](#)

### IT Resources

#### **You will need access to the following IT resources:**

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)

## Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)

For further information, see the Assessment Tasks.

## Teaching Contacts

**Lisa Bricknell** Unit Coordinator

[l.bricknell@cqu.edu.au](mailto:l.bricknell@cqu.edu.au)

**Emily Bryson** Unit Coordinator

[e.bryson@cqu.edu.au](mailto:e.bryson@cqu.edu.au)

**Dale Trott** Unit Coordinator

## Schedule

### **Week 1 - 12 Jul 2021**

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to environmental toxicology Exposure settings	Chapter 1 Chapter 3	

### **Week 2 - 19 Jul 2021**

Module/Topic	Chapter	Events and Submissions/Topic
Classifying toxicants by use	Chapter 4	

<b>Week 3 - 26 Jul 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Toxicokinetics and biotransformation	Chapter 5	
<b>Week 4 - 02 Aug 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Toxic action- Acute toxicity	Chapter 10	Quiz 1A opens 9:00 am Monday
<b>Week 5 - 09 Aug 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Chronic toxicity- carcinogens, mutagens and teratogens	Chapters 11 & 12	<b>Quiz 1A closes 9:00am Monday</b>
<b>Vacation Week - 16 Aug 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
<b>Week 6 - 23 Aug 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Target organs and systems	Chapters 13 & 14	
<b>Week 7 - 30 Aug 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Target organs and systems cont'd	Chapters 16 & 18	
<b>Week 8 - 06 Sep 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Risk assessment	Chapters 20 & 23	Quiz 1B opens 9:00am Monday
<b>Week 9 - 13 Sep 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Toxicants in the environment	Chapter 25	<b>Quiz 1B closes 9:00am Monday</b>
<b>Week 10 - 20 Sep 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Toxicants in the environment- cont'd	Chapter 27	
<b>Week 11 - 27 Sep 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Regulation and ethics	Chapter 22	
<b>Week 12 - 04 Oct 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Future considerations	Chapter 29	<b>Report</b> Due: Week 12 Friday (8 Oct 2021) 11:59 pm AEST
<b>Review/Exam Week - 11 Oct 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
Exam preparation		
<b>Exam Week - 18 Oct 2021</b>		
Module/Topic	Chapter	Events and Submissions/Topic
		<b>Final examination</b>
		<b>Take home exam</b> Due: Exam Week Wednesday (20 Oct 2021) 5:00 pm AEST

## Assessment Tasks

### 1 Online Quiz(zes)

**Assessment Type**

Online Quiz(zes)

**Task Description**

- The quizzes will become available at 9:00am on the Monday of Weeks 4 and 8 and remain open until 9:00am on the following Monday.
- There is no time limit to complete the quiz and you can save your quiz and return to it later (while the quiz is available)
- You will get your final result from the quiz showing which questions you got right or wrong. This will let you know what areas you need to study/revise.
- You should choose the most correct answer.

**Number of Quizzes**

2

**Frequency of Quizzes**

Other

**Assessment Due Date**

9:00am Monday Week 5 and 9:00am Monday Week 9.

**Return Date to Students**

After each quiz has closed.

**Weighting**

20%

**Assessment Criteria**

**Quiz 1A** will assess the student's knowledge of general principles of toxicology, the different types and classes of toxins and basic toxicokinetics.

**Quiz 1B** will assess the student's knowledge of toxic actions, endpoints and organ/system toxicity.

**Referencing Style**

- [Harvard \(author-date\)](#)

**Submission**

Online

**Learning Outcomes Assessed**

- Define fundamental toxicological concepts
- Identify and classify a range of common toxicants and their environmental sources
- Explain the dose-response relationship and its implications and applications

**Graduate Attributes**

- Communication
- Critical Thinking
- Information Literacy

### 2 Report

**Assessment Type**

Written Assessment

**Task Description**

As an environmental toxicologist, you have been asked to provide an opinion and recommendations on an environmental toxicant, which will be provided to you on Moodle. In your response, you should include:

- a review of the literature relating to the toxicant, including a summary of:
  - the active substance
  - mechanisms of exposure
  - acute measures of toxicity, NOAEL, dose response, etc.

- toxicokinetics, biotransformation, target organs and endpoints
- evidence from research in the field
- a discussion of the risks, benefits and concerns
- your considered opinion, based on the evidence you have reviewed
- your recommendation for action

Length: 3000 words (10% under- 20% over is acceptable).

As with any report, you should use appropriate evidence to support your statements. There is no prescribed format for this task but your report should use relevant headings and subheadings to guide the reader. A Table of Contents and Executive Summary is not required.

### **Assessment Due Date**

Week 12 Friday (8 Oct 2021) 11:59 pm AEST

### **Return Date to Students**

Review/Exam Week Friday (15 Oct 2021)

### **Weighting**

40%

### **Minimum mark or grade**

You must achieve a passing grade for this item and an overall composite grade of 50% to be eligible to pass the unit.

### **Assessment Criteria**

This assessment task will be assessed according to the following criteria:

#### **Relevance (30%)**

- summarises relevant toxicological information from credible and reputable sources
- report is relevant to the topic of fluoride in potable water supplies
- makes appropriate connections between evidence, opinion and recommendations
- uses appropriate methodology to assess risks

#### **Validity (40%)**

- depth and extent of discussion of the evidence presented
- accuracy of the application of evidence to opinion and recommendations
- draws appropriate conclusions from assessment of risks
- opinion and recommendations have been based on critical thought, analysis of the evidence and synthesis of new ideas
- depth and range of evidence

#### **Organisation (20%)**

- quality of consideration of the required components- attention paid to toxicological information, health effects, endpoints etc, opinion is clearly expressed, recommendations are reasonable
- structure and flow of information
- coherence and clarity of expression (spelling, grammar, syntax)

#### **Presentation (10%)**

- style and formatting of report
- typographical matters (types, font, etc.)
- referencing is consistent and in accordance with Harvard style
- length

### **Referencing Style**

- [Harvard \(author-date\)](#)

### **Submission**

Online

### **Learning Outcomes Assessed**

- Apply the principles of risk assessment and risk management to toxicological situations
- Discuss major issues in environmental toxicology relating to exposures from natural and anthropogenic sources
- Critically consider the ethical and regulatory implications of toxicological research, associated uncertainties and risk communication.

## **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Cross Cultural Competence
- Ethical practice

## **3 Take home exam**

### **Assessment Type**

Take Home Exam

### **Task Description**

The Take Home Exam will examine all aspects of the unit content. it will be made available at 5pm on Monday of Exam Week and be due at 5pm on Wednesday of Exam Week. The exam will be Word Format and be Open Book. You will need to save the file to your local device and upload the completed document to Moodle.

### **Assessment Due Date**

Exam Week Wednesday (20 Oct 2021) 5:00 pm AEST

### **Return Date to Students**

After Certification of Grades.

### **Weighting**

40%

### **Minimum mark or grade**

You must achieve a passing grade for this item and an overall composite grade of 50% to be eligible to pass the unit.

### **Assessment Criteria**

1. Define fundamental toxicological concepts
2. Identify and classify a range of common toxicants and their environmental sources
3. Explain the dose-response relationship and its implications and applications
4. Describe fundamental processes and endpoints relating to toxicants within the human body

### **Referencing Style**

- [Harvard \(author-date\)](#)

### **Submission**

No submission method provided.

### **Learning Outcomes Assessed**

- Define fundamental toxicological concepts
- Identify and classify a range of common toxicants and their environmental sources
- Explain the dose-response relationship and its implications and applications
- Describe fundamental processes and endpoints relating to toxicants within the human body

## **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking

# Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

## What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

## Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

## Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

## What can you do to act with integrity?

### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
