General Information

Overview

This unit represents the capstone of your studies in environmental health. The content in this unit integrates the aspects of environmental health theory and practice covered within other environmental health units by focusing on current policy issues, strategies, tools and approaches. Using a range of real world environmental health scenarios, you will be challenged to apply your knowledge and skills to assess, manage and communicate the associated risks to public health. During residential school, you will develop your practical skills in risk assessment and management practices related to a range of contemporary and emerging environmental health issues in the field. Topics covered in this unit include environmental health policy making, health impact assessment, the use of decision support tools, strategic and operational management.
