ESSC11004 *Study and Research Skills for Health Science*
Term 3 - 2024

Profile information current as at 09/05/2024 02:59 pm

General Information

Overview

In this foundation level unit you will develop the academic study and research skills necessary for success in tertiary level education. You will learn about qualitative and quantitative research, using research databases to access peer-reviewed scientific literature, and appraise the quality of evidence presented in peer-reviewed scientific literature. You will also learn about research ethics and integrity, and develop a foundational understanding of the use of statistics in research. Additionally, you will learn fundamental concepts of scientific writing and referencing to ensure you can articulate the information you retrieve and appraise, in a clear, concise, and appropriate manner.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Previous Student Feedback

Feedback, Recommendations and Responses
Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Informal student feedback

Feedback
Students enjoyed the interactive live tutorials compared to previous years where a live lecture was delivered, however there could be more opportunity for two-way discussion.

Recommendation
It is recommended that live tutorial activities continue; however, teaching staff should attempt to promote further student engagement via live quizzes and/or two-way question and answer activities.

Feedback from SUTE

Feedback
Some of the research papers provided were not relevant to study topics for weekly tutorial activities.

Recommendation
It is recommended that a selection of research articles are provided each week to students on a range of topics to allow them to select the most appropriate to their course.
