Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback and self-reflection

Feedback

The lecture video quality was poor.

Recommendation

To avoid issues with recording staff will try to ensure this unit is allocated to a more suitable room and should any issues be identified during term, staff will with with ITD to find a solution.

Feedback from Student feedback, self-reflection, and academic staff

Feedback

Visit Mackay earlier in the term.

Recommendation

Staff will consider moving the timing of the visit to Mackay to earlier in the term while ensuring the timing of laboratory activities aligns with unit content to allow for a meaningful laboratory experience.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Discuss key psychological aspects relating to sport performance and exercise participation.
2. Discuss the importance of leadership in sport and exercise environments.
3. Compare and contrast sport and exercise psychology theories.
4. Apply theoretical and psychological intervention to enhance sport performance or increase exercise adherence in various populations.

4 Practical Assessment

Assessment Type

Practical Assessment

Task Description

The practical assessment involves attending and participating in the laboratory sessions associated with this unit. During these sessions you will be required to participate in sessions involving exercise. The first laboratory session requires the performance of abdominal planks using associative and dissociation mental strategies. The second laboratory session requires the performance of maximal exercise on a rowing ergometer in the presence and absence of social facilitation. The third laboratory session requires participating in simulated counselling sessions. The laboratory sessions for this unit are compulsory. If you are enrolled as an on-campus student in Rockhampton or Mackay you must attend the one day laboratory session on your respective campus. If you are enrolled as a mixed-mode student you must attend the one day residential school on the Rockhampton campus. Dates of required attendance are located on the unit schedule and you should confirm the dates via the University Handbook.

Assessment Due Date

Attendance and participation at compulsory laboratory session and/or residential school as scheduled.

Return Date to Students

Grading will be available at the end of term, upon completion of the Practical Assessment.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
