General Information

Overview

This unit provides an introduction to common injuries that occur in sports. You will learn about mechanisms and risk factors of various sports injuries, injury prevention and rehabilitation processes and interventions, and how these apply to different athlete populations and training scenarios. Emphasis is placed on providing an understanding of the aetiology, treatment and prevention, and acute management of common sports injuries. You will also gain practical skills in sports taping techniques, delivery of injury prevention programs, assessing and monitoring injury risk factors, and assessing return to sport. The content of this unit builds on knowledge gained in other units related to anatomy and physiology, functional anatomy, and physical activity, health, and fitness.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Students have requested that more time be provided for the quizzes as they feel there is not enough time to effectively answer the short answer questions.

Recommendation

It is recommended that the Unit Coordinator review the time allocation for the quizzes.

Feedback from SUTE

Feedback

Students have suggested that the timing of residential schools make volunteering at sporting organizations difficult as most competitive seasons are wrapping up by that time of year.

Recommendation

It is recommended that the assessment requiring volunteer hours (Assessment #4 - Part B) be adjusted to allow students to begin earlier in the term.
