ESSC12010 *Functional Anatomy*

Term 2 - 2025

Profile information current as at 15/11/2024 04:15 pm

All details in this unit profile for ESSC12010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

The development of foundation knowledge and competencies in functional anatomy complements anatomy and physiology units and provides the cornerstone to manual assessment of musculoskeletal conditions. This unit will provide you with the knowledge necessary to identify and describe the structural and functional requirements of the musculoskeletal system in relation to human motion for a variety of activities. The unit will develop your understanding of the anatomy of the limbs and the functional principles underpinning movement and posture, including an understanding of the performance aspects of muscle, joints, and the mechanics of movement. You will develop skills in manual location and assessment of musculoskeletal structures as they apply to rehabilitation, exercise conditioning, and general movement.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Head of Course and WIL coordinator

Feedback

Students completing this unit and entering third year have commented that earlier placement opportunities within the course could better prepare them for placements in third year.

Recommendation

It is recommended to investigate the potential of short practicum activities (10-20 hours) to be embedded in this unit providing earlier opportunities for students to undertake work integrated learning and to spread their practicum hours across the course.
