## General Information

### Overview

Climate change is now widely recognised as one of the biggest challenges facing the world. Its effects are already severe in Australia as well as in many other parts of the world. This unit will present you with in-depth knowledge of the issues related to climate change, with a focus on assessing risks of climate change and approaches to deal with the impacts. You will be introduced to the nature of climate change as well as to interdisciplinary approaches and integrative perspectives to problems of anthropogenic climate change. These include response strategies and programs to avert, mitigate, and adapt to climate change.
