General Information

Overview

This unit is the foundation unit for students completing the Financial Planning stream and covers the professional financial planning process, including the Australian legal framework and the responsibilities of financial planners. You will learn how to investigate a client's financial situation and turn the core elements of financial planning into a strategic financial plan. You will also be introduced to financial planning software, tools and templates used in real-world financial planning practice as well as communication methods aimed at building long term client relationships.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Sessional lecturer

Feedback

Additional material, including extra demonstrations and recordings on XPlan was provided to the students throughout the Term.

Recommendation

Continue to update the unit materials going forward.

Feedback from Sessional lecturer

Feedback

There were a number of portfolio activities that were time consuming to do and mark and the students were in the middle of doing these when there was a change of teacher. The turn around was approximately two weeks. The exams were marked before the deadline.

Recommendation

The portfolio activities may be better done as a quiz or to turn them into pre-preparation material for the main scoped Statement of Advice Assessment

Feedback from Sessional lecturer

Feedback

Drop in sessions were also provided for students for consultation around assessment which the students appreciated and allowed them to be more engaged. Some students who didn't turn up at the online workshop sessions attended the drop in sessions.

Recommendation

Doing a poll on timing of workshop sessions may assist with the best time for students to attend. Some students were unable to attend the workshops due to work commitments.

Feedback from Student Evaluation

Feedback

One student comment: "In my opinion it will be really easy if there are more practice questions in the end of every week. So one can revise, even in the study guide I would love to see a summary of week rather than just a introduction."

Recommendation

The lecturer can incorporate weekly workshops focusing on content and practice questions.

Feedback from Student Evaluation

Feedback

Student feedback suggested finding content on the Moodle site was sometimes difficult, confusing and stressful, because of the way the content was stored

Recommendation

Redesign the Moodle site with appropriate headings and subheadings where content can be stored so that it can be found with ease.

Feedback from Student Evaluation

Feedback

A student felt lectures were way too long suggesting it would be handy to have a pre-recorded lecture without the student involvement. They felt the lectures and assessments took much longer than anticipated.

Recommendation

Redo the recordings to provide content only and try and reduce the content on the Moodle site.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Explain and apply the process and Australian legal framework of financial planning.
2. Present strategic advice which meets the financial planning needs and objectives of clients in a variety of circumstances.
3. Communicate effectively with clients to solve financial planning problems.
4. Construct financial planning scenarios using industry standard software.

2 [SCALED] STATEMENT OF ADVICE

Assessment Type

Practical Assessment

Task Description

This is an individual assessment.

Comprehensive guidelines, submission instructions, resources and marking criteria will be available in Moodle in the ASSESSMENT Section.

In summary, you will be provided with a client case study and a Best Interest Duty Statement template.

The purpose of this assignment is to have you research a financial planning problem, analyse a number of solutions and document your recommendations using a real-world financial planning advice template [i.e. Best Interest Duty Statement].

The Best Interest Duty Statement must be thorough. It is used in the real-world as a preliminary worksheet and contains specific justifications related to your financial planning recommendations. Hence, this assignment has the reputation for being challenging, yet useful in terms of how it builds wealth creation knowledge as well as provides an employable skill. Weekly webinars will demonstrate how to construct a Best Interest Duty Statement from different perspectives.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
