Term 2 - 2021

Profile information current as at 27/04/2024 02:28 am

All details in this unit profile for FINC11001 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit is the foundation unit for students completing the Financial Planning stream and covers the professional financial planning process, including the Australian legal framework and the responsibilities of financial planners. You will learn how to investigate a client's financial situation and turn the core elements of financial planning into a strategic financial plan. You will also be introduced to financial planning software, tools and templates used in real-world financial planning practice as well as communication methods aimed at building long term client relationships.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from self-evaluation

Feedback

Overall the unit ran well, especially when students realized posting their unit content and assessment queries using the Moodle Q&A Forum gets them answers faster than using other means of communication. It especially encouraged students to help each other solve problems around unit content and assessments.

Recommendation

Continue to encourage students to use the Moodle Q&A Forum to get academic and assessment support from the unit coordinator and their peers (virtual classmates)

Feedback from staff feedback (peer review);**Feedback**

Complaints about some of the multiple choice questions being too ambiguous, inappropriate and open to interpretation and misinterpretation led to a feedback and peer review meeting between the unit coordinator and supervisor

Recommendation

When students are dissatisfied with any assessment tasks that leads to a formal complaint, it is important the issue, however minor is addressed by the unit coordinator within the scope of CQU's complaints handling process

Feedback from student feedback (formal unit evaluation responses)**Feedback**

Students appreciate lecturers that are approachable, helpful, supportive and nurturing that gives them that personal touch given the unit is challenging and can be overwhelming for new entrants to financial planning

Recommendation

Continue to encourage and support students navigate a challenging unit

Feedback from student feedback (formal unit evaluation responses)**Feedback**

Students appreciated real-life examples and interesting workshops where the knowledge was relayed in an easy to understand manner

Recommendation

Continue to offer workshops where the unit content is explained in an interesting easy to understand manner

Feedback from student feedback (formal unit evaluation responses)**Feedback**

Students found the resources on Moodle were too much, overwhelming and puts them off reading if it is too much content

Recommendation

Review the unit Moodle reading content volume for assessments and learning

Feedback from student feedback (formal unit evaluation responses)**Feedback**

Written assessment needs to be proof-read to ensure it flows well and does not confuse students.

Recommendation

Review to consider engaging more than one proof-reader and reviewer for the assessment tasks to ensure it flows well and does not confuse students

Feedback from student feedback (formal unit evaluation responses)**Feedback**

Within the context of unit coordinator's workloads, public holidays and guest presenters. students want the workshop conducted in the week that the content is delivered as it helped the student watching the workshop after doing the content and readings really helped with the learning and understanding of the content.

Recommendation

Review whether classes are appropriate for Mondays or Fridays when public holidays usually occur, and whether guest speakers are adding any value for the students for an introductory course

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Explain and apply the process and Australian legal framework of financial planning.
2. Present strategic advice which meets the financial planning needs and objectives of clients in a variety of circumstances.
3. Communicate effectively with clients to solve financial planning problems.
4. Construct financial planning scenarios using industry standard software.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
