

FINC19011 Business Finance

Term 3 - 2021

Profile information current as at 14/12/2025 04:12 pm

All details in this unit profile for FINC19011 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit covers the basic concepts, tools and techniques that financial managers use in the contemporary business context. You will learn about the principle functions of financial managers, the different business structures, and capital markets and financial securities. You will also examine the valuation of investments and portfolio, project evaluation, the cost of capital, market efficiency, risk management, basics of foreign exchange and international financial market, and dividend policy. Completion of the unit will raise your awareness on how businesses and corporate organisations decide on short and long term investment decisions, and the global and domestic economic and contextual factors which influence these decisions.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student

Feedback

Take-home exam can be made more manageable.

Recommendation

The question structure of the take-home exam will be reconsidered to make it more manageable within the exam time frame.

Feedback from Self

Feedback

Some contents can be updated to reflect contemporary contexts.

Recommendation

Some resources will be updated to conceptualise the modern finance contexts and industry and academic research.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Identify and explain the critical problems corporate financial managers encounter and solve
2. Apply finance theories and synthesise related information for corporate valuations, financial decision making and dividend policy formulation
3. Analyse and form investment decisions using sound capital budgeting techniques
4. Analyse risk and return for financial decision making
5. Explain the valuation of financial securities (bonds, shares etc.) and the role of efficient markets.

Assessment Tasks

1 Knowledge and Valuation Assessment

Assessment Type

Practical and Written Assessment

Task Description

The assessment can be submitted individually or in a group of a maximum of two students. The assessment constitutes a set of mathematical problems and associated theory and discussion questions and case studies (real-world scenario, or hypothetical or virtual world scenario). The contents involve weeks 1-5 (inclusive). The assessment aims at both judging your competence regarding the topics encountered and making you familiar with the applications of these concepts in real-world information processing. Further details, including the specific questions to be answered and any additional requirements for a group submission, will be provided within the Assessment block in Moodle by the end of Week 1.

Some points to note:

1. The explanations in discussion questions should aim at one brief paragraph or multiple paragraphs depending upon the question and marks allocated. If you use sources to support your decisions, please

use in-text referencing to acknowledge the source. However, you are not expected to reference the formulae.

2. You should submit as a doc/docx/rtf format through the submission link on Moodle.

Assessment Due Date

Week 7 Friday (7 Jan 2022) 11:59 pm AEST

Return Date to Students

Week 10 Monday (24 Jan 2022)

Return information will be advised on Moodle

Weighting

Assessment Criteria

The assessment judges your ability to solve the set problems and discuss the relevant issues, further to your capability to use online resources. Marks allocated for this assignment consider the following aspects:

- Completeness
- Accuracy of the calculations
- Quality of explanations
- Presentation
- Proper use of references
- Model construction (if any) using Microsoft Excel

More details are on Moodle.

2 Online Quiz

Assessment Type

Online Quiz(zes)

Task Description

Complete an online quiz through the relevant link in Moodle. The quiz will open on Friday of Week 10 at 9 am (AEST) and will close on Monday of Week 12 at 11:59 pm (AEST). It consists of questions relating to weeks 6-10 inclusive and covers both theoretical concepts and math problem-solving. You have 65 minutes to complete this online quiz. You will be unable to re-open the quiz after the indicated dates and times. If you experience a computer problem you cannot solve, you are required to contact the unit coordinator by email at the earliest. Notably, the online system records your attempt on the quiz and decisions regarding any computer issue will likely consider these records (if any). Further details on the quiz structure will be advised on Moodle by the end of Week 9.

3 Take Home Examination

Assessment Type

Take Home Exam

Task Description

A take-home examination will be available via Moodle. It will examine the whole unit. Further details concerning its structure and timing will be advised on Moodle in due course.

Assessment Due Date

Exam Week Monday (14 Feb 2022) 11:45 pm AEST

The take home exam will occur during the exam week. The date for the examination will be advised following any scheduling by relevant entities and will be published during the term. Further instructions will be provided on Moodle in due course.

Return Date to Students

As a final exam no feedback will be issued before grade certification.

Weighting

60%

Assessment Criteria

Normal examination criteria are expected. Accuracy, completeness, presentation and style will be the basic expectations, with evidence of insightful mastery of the material including wider reading and understanding for the higher grades.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
