Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit & Teaching Evaluation

Feedback
Whilst I have 30 years of finance and administration experience I feel this subject was more closely aligned to people that are studying to be or are already Accountants. The lectures were well-structured, even in the online setting the explanations were detailed and practical.

Recommendation
The teaching approach will need to consider students from both accounting and non-accounting backgrounds and support them all to achieve the learning outcomes.

Feedback from Student Emails

Feedback
My background is medical laboratory science and all this is new to me but I still find the unit very interesting and I enjoy it very much. I genuinely appreciated the way you delivered the content and created a supportive learning environment, it made the experience both interesting and rewarding.

Recommendation
The teaching practice is to integrate further various learning resources and industry-based simulations to enhance student learning experience.

Feedback from Unit & Teaching Evaluation

Feedback
The structure of the subject, through every week has been very well thought out. Each week built off the previous week and kept me right on the edge of feeling challenged and engaged every week. One of the most tech embracing subjects I have ever been involved with. Please continue with the same approach in the future.

Recommendation
The teaching team aims to enhance further student engagement, foster a deeper understanding of complex finance concepts, and make their learning experiences more fulfilling.
