Profile information current as at 24/04/2024 01:57 am

All details in this unit profile for FINC20023 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

The unit covers a range of concepts and their application to international financial management. The concepts include those encountered in international financial markets including issues that have led to the global financial crisis. The unit provides an analysis of modern theory and current practice in international financial management. This unit covers major topics in foreign exchange markets, Euromarkets, parity concepts and applications, exchange rate forecasting, cost of capital, risk management strategies, portfolio management and capital budgeting tools in an international environment. If you have successfully completed the unit FINC20008 you should not enrol in this unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Assessment Tasks

1 Case Study and Presentation

Assessment Type

Presentation and Written Assessment

Task Description

This assessment relates to one or more case studies and/or scenarios. You are to assess the case studies/scenarios and respond to a set of questions. Additionally, you are required to submit a recorded presentation (audio/video/mixed) which reflects on the issues covered in the assessment. You have the opportunity to undertake the assignment individually or in a group of no more than three students. For a group submission, only one member of the team needs to submit the written report. However, everyone, irrespective of submitting in a group or individually, needs to submit the recorded presentation. You need to provide comprehensive answers to the set questions. You may include spreadsheets, diagrams, tables, graphs and relevant references to support your critical analysis. If the response involves calculation, you are to show relevant detailed calculation steps. The questions you need to answer, the presentation requirements, and the marking criteria will be advised on Moodle by Week 2.

Assessment Due Date

Week 6 Friday (21 Apr 2023) 11:59 pm AEST

Return Date to Students

Week 9 Monday (8 May 2023)

Further return information will be advised on Moodle

Weighting

Assessment Criteria

The assessment will be judged upon:

- Knowledge and understanding of related topic and questions
- Research skills
- Effective communication skills
- Evaluation skills

The detailed criteria, including marks allocated for each question, will be advised on Moodle.

2 Knowledge and Practice

Assessment Type

Written Assessment

Task Description

This is an assessment to be addressed individually. This assessment item consists of a set of questions and problems based on weeks 1 to 11 inclusive. You are to respond to the questions and upload your submission as a doc/docx/rtf format using the respective submission link on Moodle. Further details on the questions you need to answer and the response format expected will be provided on Moodle on Week 10 Friday, and you will then have two weeks within which to respond to the questions. Notably, there is no exam in this unit, and this major assessment replaces the exam.

Some points to note:

- The assessment is to be typed, and you are to show any relevant formula and calculation steps. You can show your calculations through an Equation Editor, MathType or similar tools. Do not round until the final answer is reached and then show answers to two decimal places.
- For discussion questions, you need to use the library and online resources further to the prescribed textbook. The referencing style needs to be consistent, and you are to maintain academic integrity.

Assessment Due Date

Week 12 Friday (2 June 2023) 11:59 pm AEST

Return Date to Students

Specific return information will be advised on Moodle. Since this is a final assessment, specific feedback may not be provided until the grade certification date.

Weighting

60%

Assessment Criteria

The assessment will be judged based upon:

- The accuracy of the answers
- The analytical skills demonstrated in answering the questions/problems and/or applying knowledge to specific question/problem
- Presentation, including proper citations and referencing (for discussion questions), and calculation steps and formula (for math problems)
- Setting out the responses in a logical and easy to follow manner

Details will be advised on Moodle.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
