## **Term 1 - 2019**

Profile information current as at 02/05/2024 04:56 pm

All details in this unit profile for FINC20028 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

In this unit you will explore risk management and insurance concepts relating to personal financial advice. You will analyse the use of the insurance policy in risk management and wealth protection across the spectrum of client situations. You will develop a familiarity with how each insurance policy works to manage risk and protect client wealth. You will examine the role of risk management products used to hedge and diversify risk within managed investment portfolios. You will also examine the benefits and risks of investment gearing.

## Term Specific Information

- Assignment 1 requires you to compare 3 Insurance policies and products. Links to Product Disclosure Statements outlining the features and benefits of each of the real-world products are provided as part of the Assessment Instructions. However, you may wish to order hard copies from the Insurance Providers and should do so before Week 1.
- You will have access to XPLAN and be able to do real-world comparisons and insurance quotes.

## Assessment Tasks

### 1 INSURANCE POLICY AND PRODUCT REVIEW

#### Assessment Type

Report

#### Task Description

Detailed instructions, marking criteria and submission details are provided under ASSESSMENTS on Moodle.

In summary, the purpose of this assignment is to critically evaluate and compare the risk and benefits of a range of personal insurance policy products. In doing so you will:

- apply the professional processes which underpin the development of suitable and quality financial advice and the ethical and professional responsibilities of the advisor in relation to insurance
- demonstrate technical knowledge related to personal insurance including terms, conditions and distinctions.
- showcase self-management skills by independently researching the legal and operational characteristics of personal insurance matters,

*NOTE: This comparison will subsequently inform the construction of insurance planning advice and recommendations developed as part of Assessment 2 Statement of Advice [Scaled].*

Also available on Moodle are Assessment Resources including How to Write a Good Report and APA Reference Guide.

#### Assessment Due Date

Week 6 Wednesday (24 Apr 2019) 12:00 pm AEST

This assignment is due at NOON [AEST] Wednesday 24th April 2019.

## 2 SCALED STATEMENT OF ADVICE: PERSONAL INSURANCE FOCUS

### Assessment Type

Practical Assessment

### Task Description

This is an individual assessment and based on a client case study. Details of the case study PLUS the SoA Template, resources and XPLAN logins are available on Moodle.

### Overview of the Task Requirements:

- From the client case study, identify the client's objectives, needs and financial situation
- Use tools provided such Insurance Needs Analysis and the Risk functions in XPLAN [or similar software] to identify the amount and type of insurance cover required
- With the client's specific needs and best interest duty in focus, compare the characteristics and appropriateness of the relevant insurance policies and/or use comparisons developed and reported in Assignment 1.
- Filter findings from the analysis and comparisons and develop recommendations
- Using the SoA Template document the personal insurance advice

### Assessment Due Date

Week 10 Wednesday (22 May 2019) 12:00 pm AEST

This assignment is due at NOON Wednesday 22nd May 2019.

### Return Date to Students

Week 12 Wednesday (5 June 2019)

Feedback will be provided via Gradebook

### Weighting

30%

### Assessment Criteria

Given the need to uphold professional standards, a comprehensive marking guide and rubric is available on Moodle under ASSESSMENTS.

In summary, marks will be based on the quality and attention given to:

- the basis for the advice
- clear and coherent explanations and recommendations
- demonstrations of best interest duty in the context of insurance advice
- presentation and organisation of the SoA document

For consistency, the CQU SoA template must be used to document the advice.

### Referencing Style

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

**What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

**Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

**Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

**What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
