Assessment Tasks

1 Portfolio

Assessment Type

Portfolio

Task Description

Portfolio requirements

The portfolio tasks relate to learning outcomes 1, 2, 3 and 4. These are listed below.

1. Evaluate the influence of international health care models on the evolution of the Australian health care system
2. Determine the inter-relationship between health care structures and health care policy
3. Contrast the difference in governance between Government, non-Government, private and the charitable health care sectors
4. Examine the relationship between health care reform, health care issues and health management practice.

Due date: 7/06/2019

Weighting: 60%

What to include when you submit your portfolio

Your portfolio tasks should be entered into Mahara. A Zoom guide will show you how to navigate Mahara. Try to complete the portfolio activities and tasks each week. Enter the week and the task into your portfolio.

For example: Week 4, Task 2.

Describe the social factors influencing female breast cancer mortality in Brazil. Describe barriers to understanding the extent of breast cancer mortality across Brazil and what considerations could be measured to achieve equitable health care.

The portfolio requires you to answer questions, complete tasks and activities. You will see portfolio tasks introduced throughout the reading material on Moodle. A summary of tasks is listed at the end of each week, after the recommended reading section.

Each week the word count for the portfolio is 500 words with a variation of +/- 10%. For example, if you have three portfolio tasks for the week, you would need to divide the words accordingly and the total word count for all three combined tasks should equal 500 (+/- 10%) words. For example - you may decide to divide the word count like this:

Task 1 - 200 words

Task 2 - 200 words

Task 3 - 100 words

Total words = 500 words

A marking guide is used to assess your knowledge and application of portfolio tasks. You are expected to use references to show a wide breadth of reading in regard to the task requirements. The word count is considered from the first word of the introduction to the last word of the conclusion. It excludes the cover page, abstract, contents page and reference list. It includes in-text references and direct quotations.

You are required to use American Psychological Association (APA) abridged guide term 2, 2018.

Assessment Due Date

Week 12 Friday (7 June 2019) 11:45 pm AEST

The portfolio should be entered into Mahara. The link to the URL should be posted to Moodle under the assignment tab.

Return Date to Students

Week 2 Monday (18 Mar 2019)

Students will receive an email when the assignment has been marked. The grade will appear in grade book.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
